The Synthochirals Story

In the year 2004, Synthochirals started out as a pilot drug production company in Hyderabad.

Today, we are one-of the finest manufacturers of bulk drugs, intermediates, APIs and synthetic drug as required by our clients.

With state-of the art production facilities spanned across our 2 large scale manufacturing units and R&D centre, we have unmatched expertise in producing chiral catalysts, chiral building blocks, heterocyclic compounds, and other active pharmaceutical ingredients.

Our Milestones

SynthoChirals Pvt. Ltd.

2011

2013

2014

2004

2009

Govt. of Karnataka
granted drug
manufacturing
licence

Handling 20+ API
products for Major
Indian Drug
Manufacturers

Started KSM
exports to USA

Inception of our
R&D pilot plant in
Hyderabad

Commenced our
Bidar Plant with
cGMP and
ISO:9000 guidelines

Our Milestones

2019

Acquired
“Vaidhatru Pharma” at Raichur.
Stepping up our production
capacity & capabilities

2023

We started
exporting to Japan,
APAC & Europe

2024

Our Bidar Plant
received USFDA
approval for KSM02

2025

Audited for EU GMP
readiness, achieving a
compliant outcome.

At Synthochirals, our commitment to industry leadership and innovation drives our success and sets us apart in the API manufacturing domain sector. We continually push the boundaries of technology and operational excellence to deliver superior energy solutions.

Our Operational Excellence

SynthoChirals Pvt. Ltd.

SynthoChirals Private Limited
Manufacturing Unit
Bidar, Karnataka

125 KL– Plant Capacity
12,740 m²– Total Area
3– Production Blocks

Vaidhatru Pharma Private Limited
Manufacturing Unit
Raichur, Karnataka

150 KL– Plant Capacity
31,700 m²– Total Area
3– Production Blocks

SynthoChirals Private Limited
R&D and Pilot Lab
Hyderabad, Telangana

1.5 KL– Plant Capacity
1,860 m²– Total Area
1– Production Block

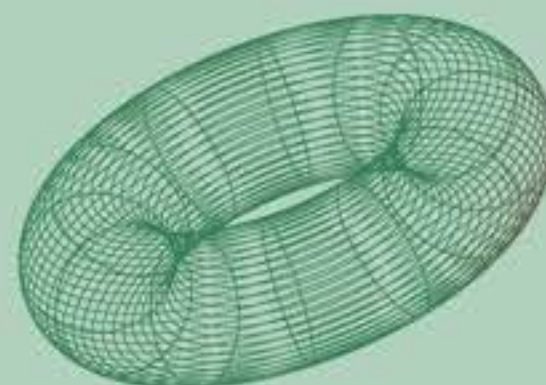

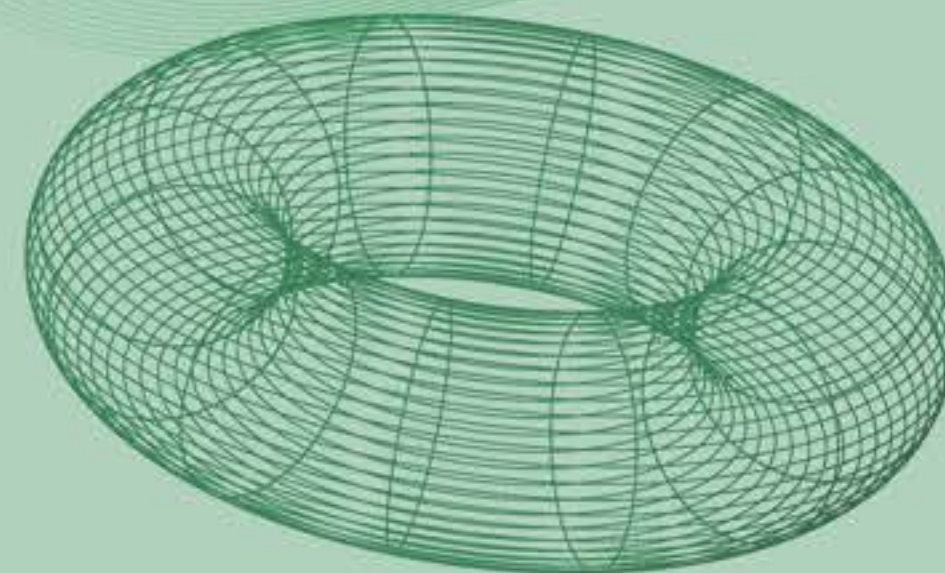

VISION

To be a trusted Indian partner in the development and manufacturing of complex APIs, Intermediates, custom drugs and chiral products

MISSION

We are committed to developing and manufacturing premium, technologically advanced active ingredients for the pharmaceutical industry, with the goal of delivering medicines that make a meaningful impact on people's health.

Our Mission and Vision

Our Services

With a strong team of scientists and process engineers, we are up to any challenge involving complex chemical synthesis from route scouting, process development, scale-up to commercial scale.

**Custom
Synthesis**

**APIs & Intermediates
Manufacturing**

**CDMO
Services**

**Synthetic Chemistry
Services**

SynthoChirals Pvt. Ltd.

Our Chemical Expertise

Triphosgene Chemistry

Chiral Chemistry

Grignard Reaction

Oxidation & Reductions

Carbohydrate Chemistry

Butyl Lithium Reaction

Discovery
Development
Delivery

Friedel Crafts & Strecker Reaction

Cyanation Reaction

Sonogashira & Suzuki Coupling

Nitration and Bromination

Enzymatic Reaction

Hydrogenation

Certifications & Compliances

Our company is frequently audited by partners, customers, and global health authorities, including the US FDA, with more than 20 audits in the last five years. We operate under stringent cGMP guidelines to ensure the highest standards.

Our QA teams have deep expertise providing full support to our partners throughout the process.

Clients & Markets

Safety, Health & Environment

- ISO 14001:2015 & ISO 45001:2018 certified
- Established HSE handbooks for safety and environmental management
- Robust internal emergency response plan and in-house medical services
- Occupational exposure control measures in place
- Structured safety training: induction, on-the-job, and live demos
- Pre-Start-Up Safety Reviews (PSSR) at critical stages
- Hazard area classification and comprehensive work permit system
- Zero Liquid Discharge (ZLD) facility for sustainable water use
- Green Chemistry principles embedded in product development
- Integrated plan for industrial waste management and treatment

SynthoChirals Pvt. Ltd.

Why Choose us?

Long and Branched Chain Peptide Synthesis

We specialize in synthesizing complex peptides, providing tailored solutions to meet specific research or therapeutic requirements.

Handling Challenging Chemistry

We have the capability to manage beyond 200 kgs sodium metal in manufacturing processes, ensuring both precision and safety when working with this highly reactive material.

SynthoChirals Pvt. Ltd.

Why Choose us?

Cryogenic & Hydrogenation Reactions

We are proficient in handling cryogenic reactions and hydrogenation processes, maintaining control over these sensitive and critical reactions to deliver high quality outcomes.

Multiple Solid-Phase Catalytic Reactions

We conduct multiple solid-phase catalytic reactions with precision, leveraging our expertise to achieve high efficiency and yield in catalytic processes
