

OPTIKOM

Food supplement containing
MaquiBright® and Omega-3 fish oil.

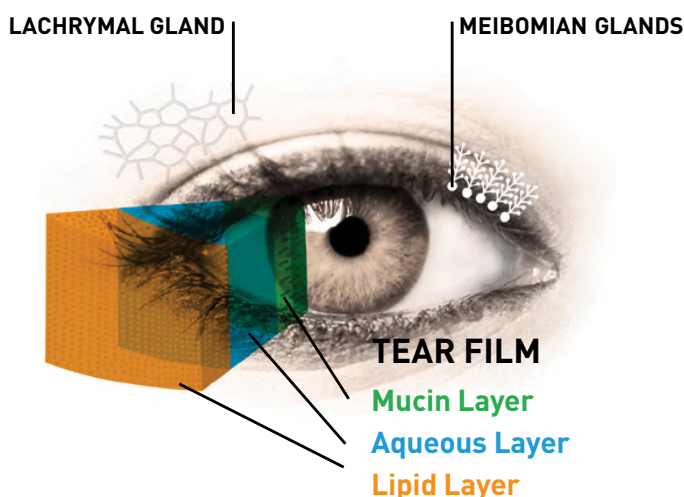

Optikom is a unique product that helps to reduce dry eye symptoms, support eye health and normal tear production by combining two key ingredients, Omega 3 fatty acid and Maqui berry extract.

MaquiBright® is a patented maqui berry (*Aristotelia chilensis*) extract standardized to bear a minimum of 25% Delphinidins and a minimum of 35% total anthocyanins.

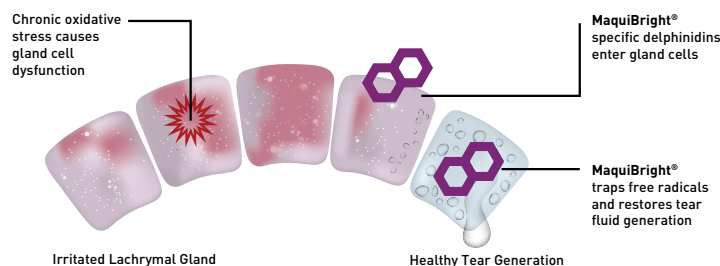

Omega-3 fish oil positively affects meibomian glands lipid layer synthesis, stabilises the tear film and thus prevents evaporation of the aqueous tear fraction.

OPTIKOM DOUBLE ACTION ON TEAR FLUID PRODUCTION

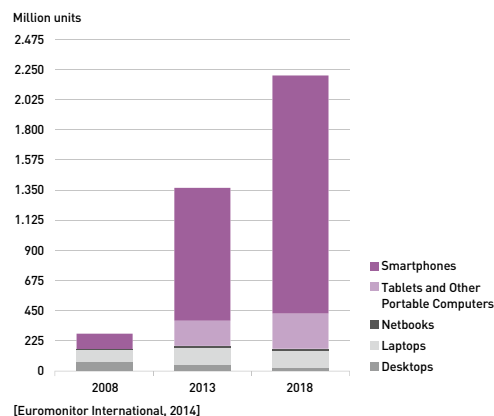

MAQUIBRIGHT® MODE OF ACTION

Lachrymal Gland Cell

Global Volume Sales of Smartphones and Computers 2008 / 2013 / 2018

Ingredients:

Nutritional Information	Per capsule
MaquiBright® (<i>Aristotelia chilensis</i>) Berry Standardized Extract (standardized to minimum %35 total anthocyanins and minimum %25 total delphinidins)	60 mg
Fish oil	250 mg
