## Who We Are

Orion GXP Consulting currently provide interim and contract QPs for clients with their own MIA and where our QPs can certify batches on behalf of the client.

Orion has been actively engaging with the Biopharma and pharmaceutical industry. We have several companies engaging with us to provide access to the UK and EU market for import and QP batch certification and for storage provision to allow onward supply and commercial wholesaling.

**Charley Maxwell**  
**Managing Director**

Charley has over 25 years of experience in the Irish and UK Pharmaceutical and medical device industry. He is QP and RP and has developed strong working relationships with many companies looking to access the EU.

**Patricia Grimes**  
**Director of Operations**

Patricia is Director of Operations & Principal Consultant, she heads up GMDP operations for our clients across the UK/EU. Patricia was previously Head of Quality for the Healthcare division for a multinational distributor.

**Lee Maxwell**  
**Director & Office Manager**

Lee currently manages multiple aspects of administration, finance and HR for the company. Lee is passionate about our brand and ensuring that Orion drives value and excellence for all our clients.

# Our Directors

# Orion GXP Services

Discover **Orion GXP Temperature Mapping Services**, providing end-to-end solutions for temperature-controlled environments. Our expert team ensures compliance with stringent regulations while offering automated monitoring and reporting for **reliable**, efficient operations in pharmaceutical warehouses.

## Our service offers:

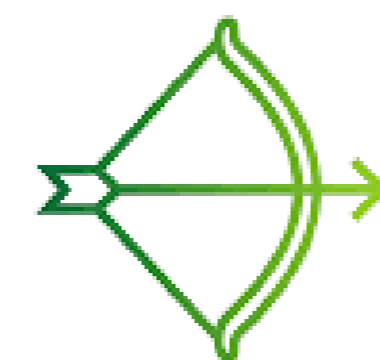

- ✓ End-to-end temperature mapping (ambient, cold, freezer)
- ✓ Support with qualification and requalification protocols
- ✓ Mapping aligned with EU GDP and Annex 15 requirements
- ✓ Automated data collection and reporting – eliminate manual USB extracts with digital capture and instant reports
- ✓ Live monitoring and instant troubleshooting – act now to minimise costly delays
- ✓ Quality and compliance at the core – ISO 17025-accredited or traceable calibration, ISO 9001-certified, and 21 CFR Part 11-compliant

The graphic features a background of a pharmaceutical warehouse aisle with metal shelving units. Overlaid on this is a large thermometer icon. To the right of the thermometer is a line graph showing a temperature curve that starts at a baseline, dips slightly, and then rises steadily. Above the graph are icons for a server rack and a document. The text 'Temperature Mapping Services' is prominently displayed at the top in a large, bold, dark green font. Below the graph, a smaller line graph shows a fluctuating temperature profile. At the bottom, a text box contains the message: 'Ensure product integrity throughout your supply chain with precise, compliant temperature mapping solutions.'

## Temperature Mapping Services

Ensure product integrity throughout your supply chain with precise, compliant temperature mapping solutions.

**CONSULTING**

# Onboarding Experience for Clients

## 4. Delivery

Your project moves into delivery, supported by regular meetings and touchpoints to ensure progress, quality, and alignment throughout.

## 3. Project Launch

Following proposal acceptance, we arrange a launch meeting to align on priorities and introduce you to the consultant, who will act as the project owner and main point of contact.

## 2. Solution Proposal

Based on the scoping call, we develop a comprehensive proposal outlining the agreed requirements, our recommended approach, and the services needed to support your project.

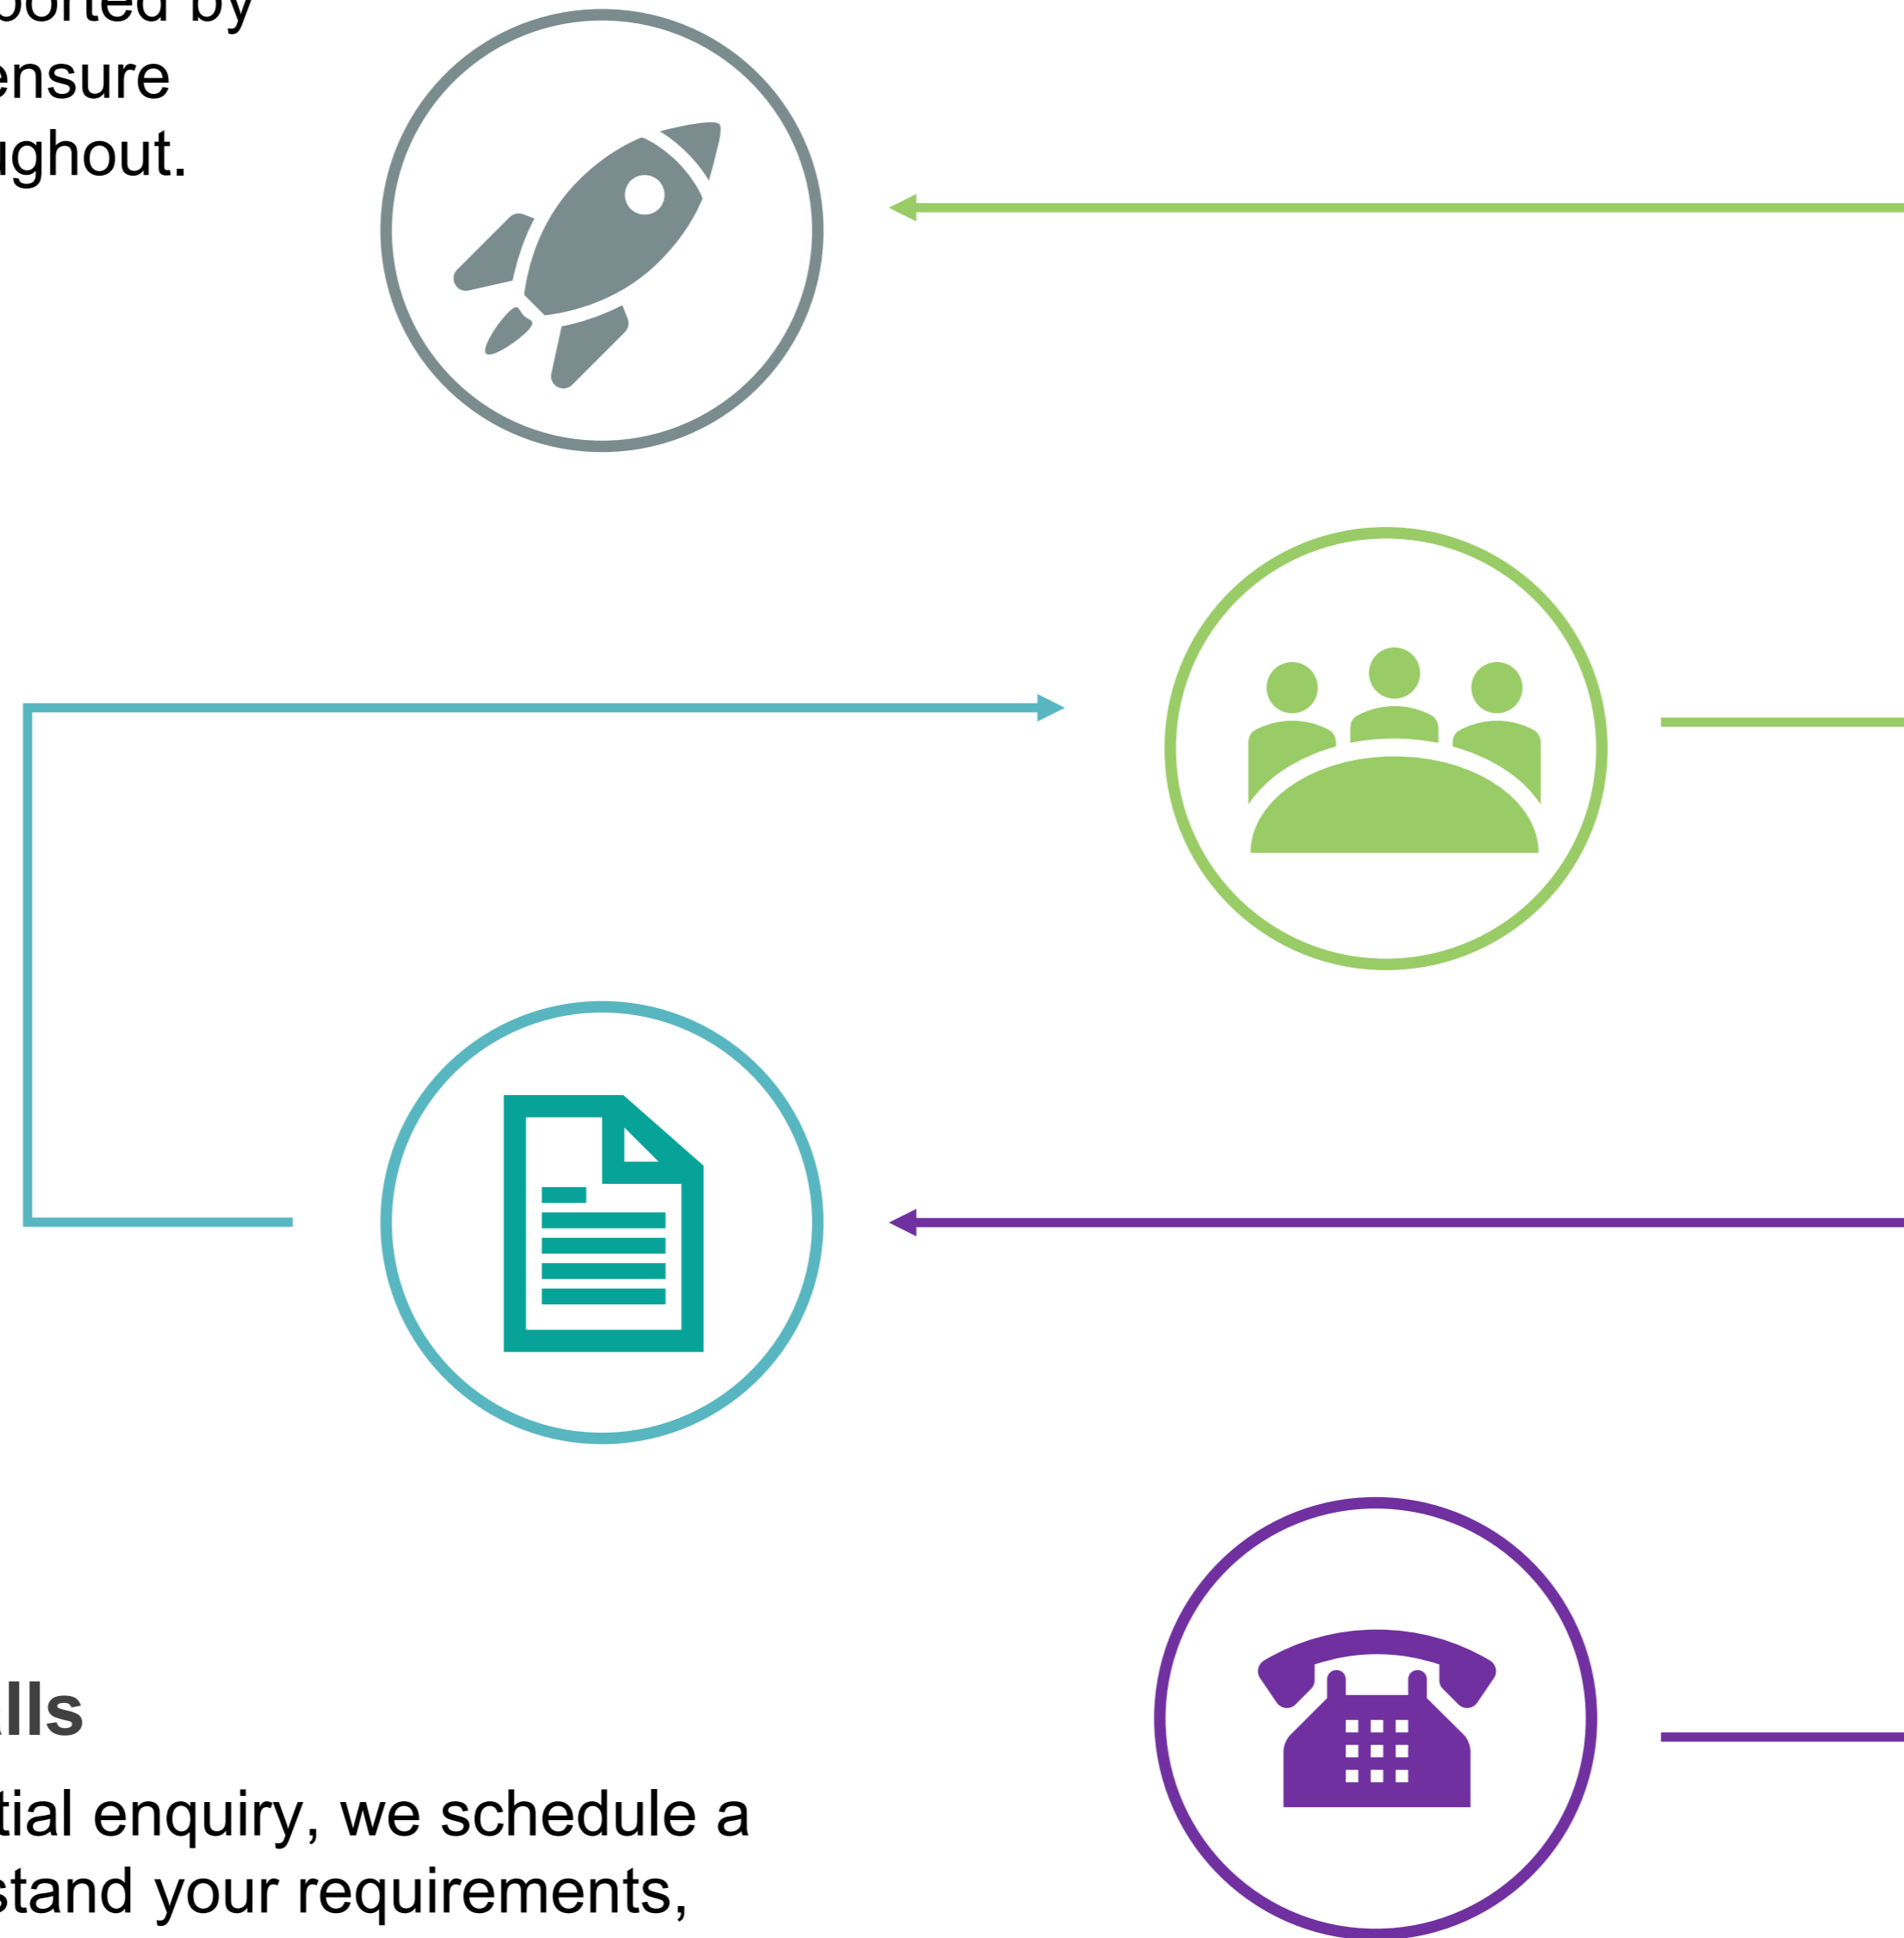

## 1. Scoping Calls

Following your initial enquiry, we schedule a call to fully understand your requirements, define objectives, and outline deliverables and timelines.

Our commitment is to ensure every stage of your onboarding is delivered seamlessly, efficiently, and with timely precision.

# Client Testimonials...

What our valued clients say about us!

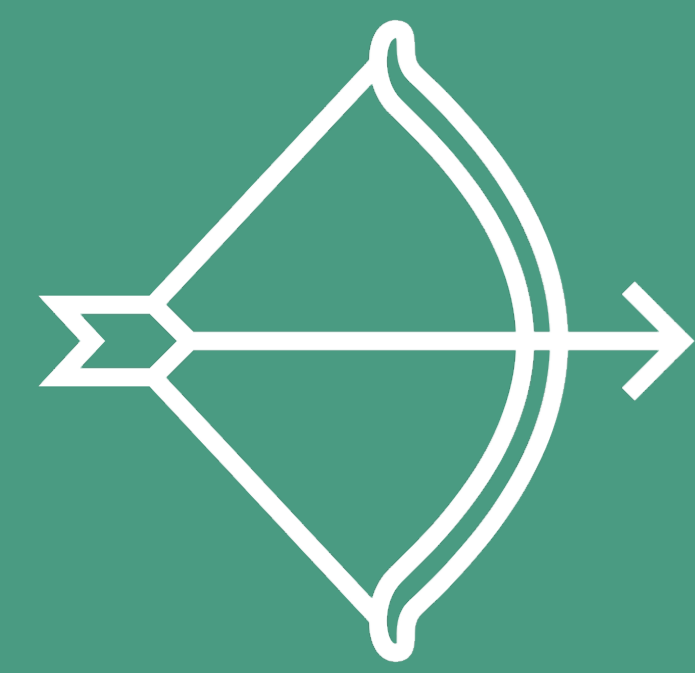

The Orion GXP team acts as an extension of our organisation, providing support, advice and guidance wherever needed. The team are very responsive, easy to work with and flexible. Having worked with Charley and his team for many years, I highly recommend them.

Their professionalism, responsiveness, and ability to translate regulatory requirements into actionable steps gave us confidence and reassurance throughout our engagement. We felt comfortable and well-supported from the start, and this positive impression has only been reinforced over time.

We would highly recommend Orion GXP to any organisation seeking expert guidance and dependable support in regulatory affairs and WDA applications.

Working with Orion has been instrumental in achieving our Wholesale Distribution Authorisation in Ireland. Their team combines in-depth GxP expertise with a pragmatic approach that fits perfectly into day-to-day operations. With their support on audits, change controls, and Responsible Person (RP) activities, we were able to translate complex compliance requirements into clear, actionable steps.

From my first meeting with Patricia/Orion I knew the support they would offer the business would be of the highest standard. Patricia immediately identified what I needed, she inspired confidence in Orion and their knowledge/skills in maneuvering the regulatory environment. Orion have taken a very hands on approach with our business and make themselves available at short notice for calls etc. They are pragmatic and very forthright in their advice to the Client. They are currently providing project support to the business and without their support and leadership, we would not be as advanced as we are.

# ORION GXP CONSULTING
