Skin care

Dermolivo® Dermatological oil

Dermolivo® Dermatological oil is a cosmetic oil useful for the treatment of dry, reddened, chapped, desquamated skin. The formula is based on our registered blend EvoGold® (Biologic Extra-virgin Olive Oil + Natural Vitamin E), which is rich in squalene and reaches even the deeper layers of the skin.

Mechanism of action

Dermolivo® Dermatological oil is applied topically to clean skin, and the edibility of the components makes its use particularly indicated and safe as a protective of the lips, the mucous membranes of the mouth and for the protection of the nipple during breastfeeding.

Hypoallergenic, dermatologically tested, well tolerated and delicate. Nickel tested. It does not contain: parabens, dyes and preservatives, PEG, petrolatum and perfume

Fast absorbing product: non-greasy

Claims

- Useful in cases of dry, reddened or chapped skin
- During breastfeeding for the care of irritated nipples (fissures)
- Soothing for scars of any origin
- Ideal for treating milk crust in children
- Ideal for sensitive, intolerant or allergic skin
- Lipidizing action and against skin dryness
- Soothing and repairing action for diaper irritation
- Perineal massage

USP'S

- 100% natural and edible formula, no conservatives added
- Innovative and very high quality ingredients
- Non-greasy, fast absorbing
- Hypoallergenic, suitable for every skin type
- Versatile
- Airless pump container

Dermolivo® Zeta Mousse

Dermolivo® Zeta mousse is a soft dermoprotective mousse that offers a barrier effect protection to the skin. It's emollient, soothing and anti-reddening. Its innovative formula is based on 10% Zinc Oxide, Panthenol and our own registered blend EvoGold® (Biologic Extra-virgin Olive Oil + Natural Vitamin E), and it's fast absorbing and lightweight.

Mechanism of action

When applied to clean dry skin, Dermolivo® Zeta Mousse gets absorbed instantly, creating a mechanical barrier between the skin and the outside world. It helps to mitigate local irritations and thanks to its emollient and antiseptic action assists the natural skin repair processes. Useful as an adjuvant in the specific treatment of various inflammatory skin conditions in which soothing, stimulating effects, tissue regeneration are required.

Claims

Useful as an adjuvant in specific treatments for:

- Dermatitis and Dermatoses;
- Prevention of diaper and diaper rash;
- Burns, skin rashes;
- Bedsores;
- Intimate irritations.

USP'S

- 100% natural formula
- Innovative and very high quality ingredients
- Immediate effect on symptoms
- Fast absorbing and lightweight

Dermolivo® Rinsing Cleansing Oil

Dermolivo® Rinsing Cleansing Oil is an oil based cleanser specifically formulated for the most sensitive skin types. The formula is based on our registered blend EvoGold® (Biologic Extra-virgin Olive Oil + Natural Vitamin E) and it's hypoallergenic.

Mechanism of action

Dermolivo® Rinsing Cleansing Oil is applied to damp skin, where it acts as a delicate, soap free cleanser. It's suitable for face, body and intimate cleansing. It protects the baby's skin and scalp, relieves itching and burning and counteracts irritation. It gently cleanses the skin and intimate mucous membranes respecting the microbiome of the skin and the lactobacillus flora of the intimate mucosa. Protects the skin microbiome: an altered microbiome determines dehydration, redness, itching.

Claims

- Ideal for cleansing sensitive skin and mucous membranes
- Cleansing, moisturizing and emollient of dry and flaky skin
- Daily cleansing of the intimate mucous membranes
- Indicated for the treatment of milk crust
- Soothes itching
- Newborn and baby bath
- Diaper change

USP'S

- 100% natural formula
- Innovative and very high quality ingredients
- Cleanses delicately, hypoallergenic
- Suitable for every skin type
- Can be used for face, body and intimate cleansing

Dermolivo® Lip Balm

Dermolivo® Lip Balm is a specialized lip care product crafted from a blend of EvoGold® (Extra-virgin olive oil and natural vitamin E), probiotics, and hyaluronic acid. Designed to tackle issues related to dry, chapped, or damaged lips, it offers immediate comfort upon application.

Mechanism of action

Regular use of Dermolivo Lip Balm contributes to maintaining soft and well-hydrated lips, the lips gain a noticeable plumpness and smoother texture. The balm creates a protective barrier on the lips. This barrier serves as a defense against external elements such as wind, sun exposure, cold air, and saltwater, it prevents damage and supports a faster recovery process for the lip surface thanks to probiotics.

Claims

- Soothing for dry, chapped, or damaged lips;
- Protection against external elements;
- Supports the regeneration of the lip surface for faster recovery;
- Lips look plumper and smoother.

USP'S

- 100% natural formula
- Completely unique combination of products
- Both visual and practical effects
- Suitable for everyone, large target audience
