Medical Devices

Bactorinol® Nasal drops & Nasal spray

Medical devices containing **Winterized Lentisk Oil** (from *Pistacia lentiscus* berries), useful in case of nasal congestion, to favor the fluidification of nasal secretions, to clear a stuffed nose and facilitate breathing.

Lentisk oil has a bactericidal activity able to disrupt bacterial biofilms. The emollient components soothe nasal mucosa irritation due to inflammatory state of cold.

Kramegin® Vaginal douche

Vaginal douche containing **boric acid, lactic acid** and ***Krameria triandra***.

Useful in case of vaginal colonization and aggression by pathogenic bacteria and fungi.

Zantogin® Vaginal gel

Vaginal gel containing **Gotu kola** (*Centella asiatica*), **Zanthalene**®, **Polycarbophyl**®, **Xilogel**® and **Hyaluronic acid** with healing, re-epithelializing and moisturizing effect.

Useful in case of vaginal atrophy and to provide relief from vulvar irritation
