ABOUT US

PharOS is a privately owned pharmaceutical company, developing, manufacturing and supplying Generic, Over the Counter and Value Added Medicines with a global portfolio of more than **113** products and over **10.308** marketing authorizations worldwide.

Our aim is to provide affordable, high-quality medicines which help to improve the lives of patients worldwide and satisfy our corporate customers' needs from product development to launch.

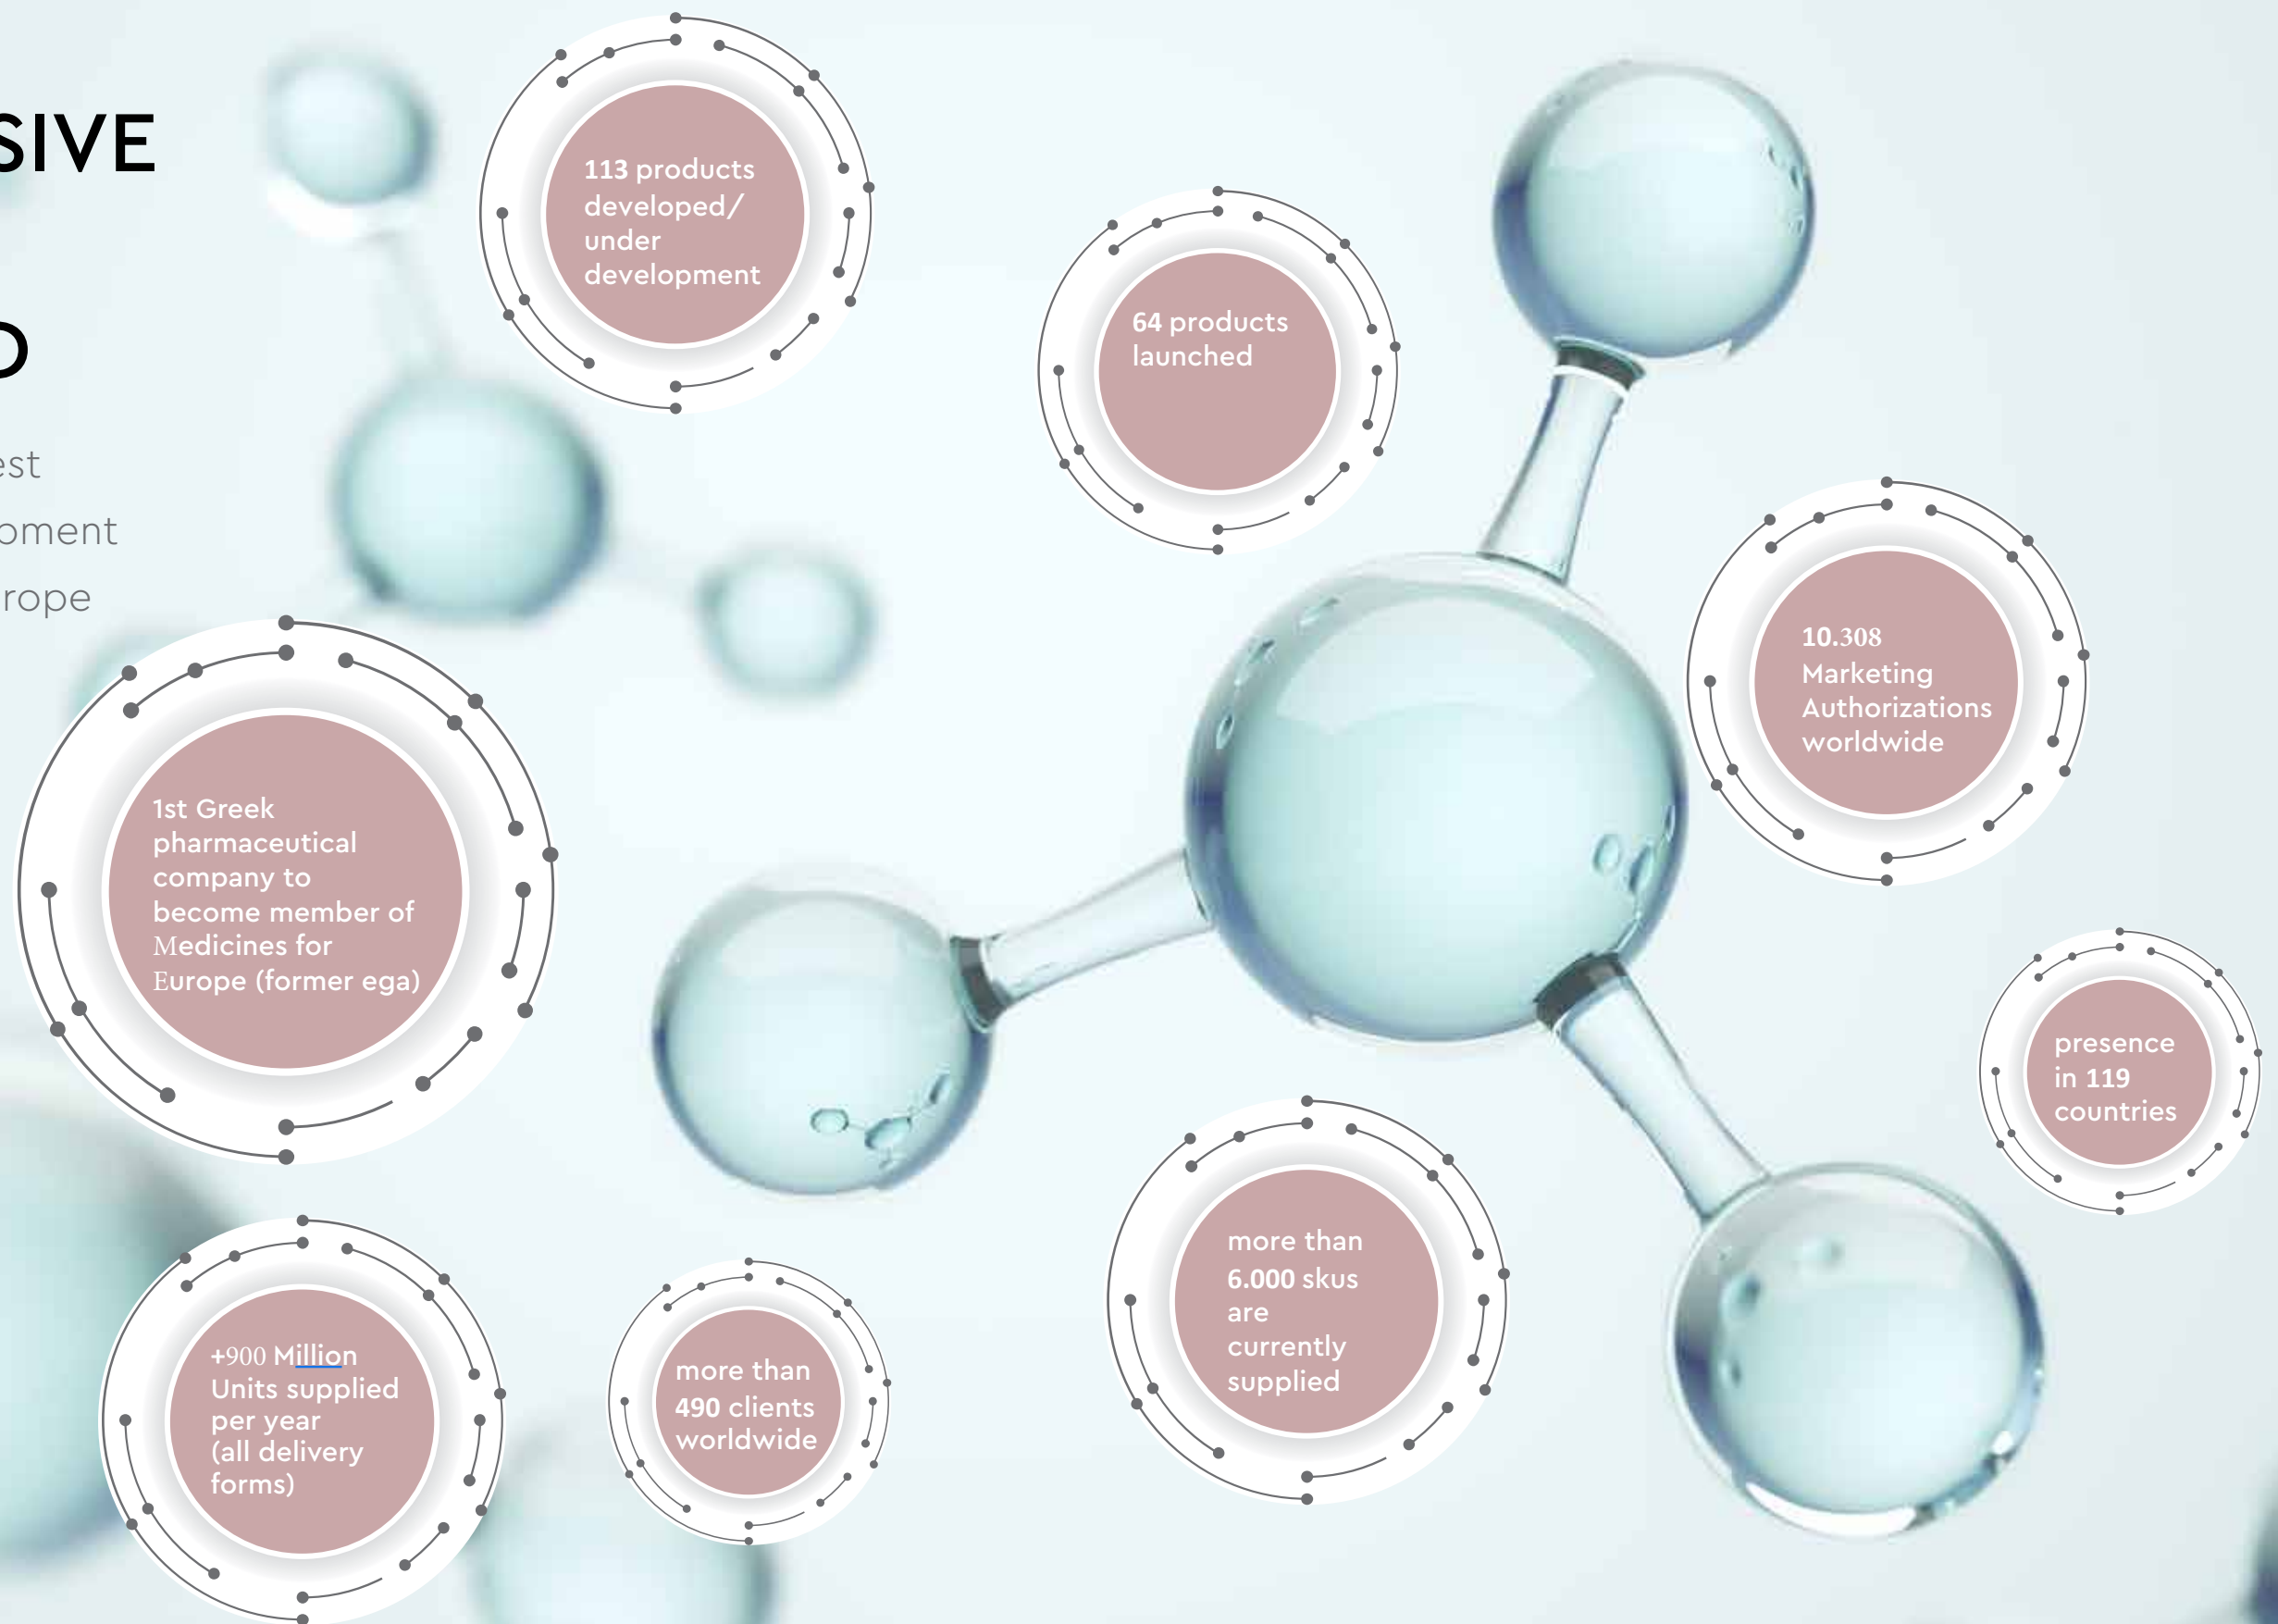

Our mission is to materialize in the most effective way our customers' trust by ensuring that our products will be among the first to enter the market, following patent expiry, and the last ones to exit.

Further to the in-house manufacturing, we embrace the collaboration with well-established manufacturers of finished goods and therefore we cooperate closely with strategically selected partners to design, validate, manufacture and release to the market our products.

AN IMPRESSIVE TRACK RECORD

Among the fastest

EXPERTISE

- > product development
- > chemistry, manufacturing & controls
- > business development
- > regulatory affairs
- > pharmacovigilance
- > manufacturing & supply

PRODUCT DEVELOPMENT

Our comprehensive development activities span from early stage formulation and analytical development to technology transfer, scale-up, process validation, as well as stability testing, CRO selection and clinical study design.

CHEMISTRY, MANUFACTURING & CONTROLS

Our in-house experts are uniquely qualified in the field of Chemistry, Manufacturing & Controls. Our skilled staff comprises scientists with in-depth experience in raw data evaluation in compliance with EU/ICH guidelines, dossier compilation in eCTD format, handling of responses for comments raised by Regulatory Authorities within a defined timeframe and dossier life-cycle management.

BUSINESS DEVELOPMENT

We offer new opportunities and growth potential to our partners by providing the right partnership model to expand business. Our experienced managers continuously seek, process and offer tailor-made partnerships on products and markets.

REGULATORY AFFAIRS

We provide full and comprehensive regulatory support during all phases of the product life cycle. Our team consists of highly qualified and experienced professionals who have positioned PharOS among the top Regulatory Affairs' experts at a European level.

PHARMACOVIGILANCE

PharOS collaborates with partners to meet the increasingly complex regulatory requirements in pharmacovigilance. Our full range of services includes QPPV, RMP preparation, literature searching and medical writing.

MANUFACTURING & SUPPLY

We provide high quality products by ensuring that our manufacturing standards are amongst the highest in Europe. By being strategically located, we offer Day 1 launch on a global scale. Our manufacturing and supply flexibility is what enables us to meet the demands of our customers, from the smallest to the biggest markets worldwide.
