## Company Genesis

### From the Chairman's Desk

#### Welcome to Makcur Laboratories Ltd.

At MAKCUR, we understand that change is inevitable, and with it comes the need to apply fresh, innovative ideas to existing and new resources to unlock their full potential. We believe that "transformation and innovation are key to building success." This philosophy drives our team to pursue quality through the adoption of the latest technologies.

To continuously improve and expand our product offerings, MAKCUR Labs is focused on developing new medicinal solutions. As healthcare remains a top priority, we are committed to ensuring that our products consistently set the benchmark for quality and affordability.

Our aim is to deliver superior pharmaceutical products to both domestic and international markets, and we are actively exploring a wide range of therapeutic areas to meet the growing needs of diverse populations.

We specialize in the production of Small Volume Parenteral Vials and Ampoules, along with capabilities to fill Ophthalmic solutions, Pre-Filled Syringes, and Dental Cartridges. Additionally, we are expanding our offerings with a state-of-the-art Blow-Fill-Seal injectable facility at the same location.

Our focus is on achieving operational excellence in manufacturing high-quality medicines for critical therapeutic areas such as anti-infective, anesthesia, anti-malarial treatments, cardiac care, and gastrointestinal drugs. "Our people are our greatest asset, our products reflect our commitment, and our culture is the foundation of our sustainability."

- D. L. Patel  
Chairman and Managing Director

## About Us

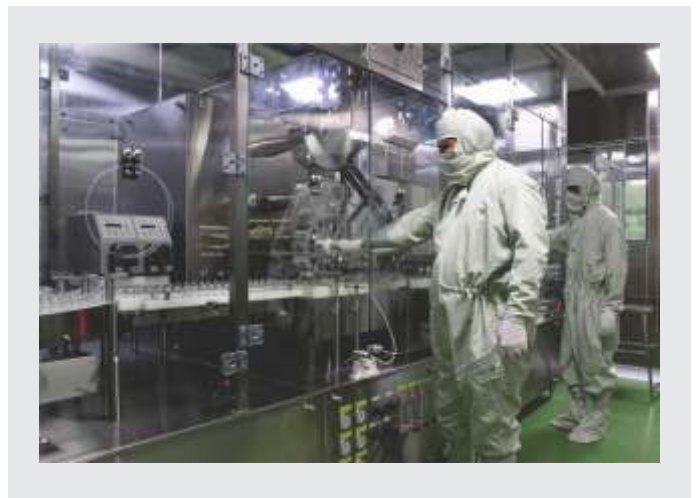

Since its establishment in 1999, MAKCUR has experienced significant growth in both international and domestic markets. With a diverse portfolio of over 200 formulations across various therapeutic areas, we have built a strong presence in multiple medical specialities. Our WHO-compliant manufacturing facility in Gandhinagar, Gujarat, has earned accreditations from regulatory authorities across Africa, the Asia-Pacific region, and CIS countries. Currently operating in nearly 50 countries, MAKCUR is now focused on expanding into new global markets to become a leading pharmaceutical manufacturer and exporter.

## Mission

To position MAKCUR as a leading and reliable manufacturer of sterile dosage forms by driving innovation and continuous improvement in our manufacturing processes.

## Vision

To enhance global health by delivering globally recognized healthcare products, ensuring consistent quality and excellence in every market we serve.

## Quality Commitment

At MAKCUR, we are committed to building an organization that places quality at its core. Every member of our team is dedicated to strictly following Quality Management Systems, ensuring that we consistently produce the highest standard of formulated products. Our HALLMARK OF QUALITY AND EXCELLENCE is the outcome of focused teamwork, a positive and supportive work environment, and a deep sense of job fulfillment.

## Production Department

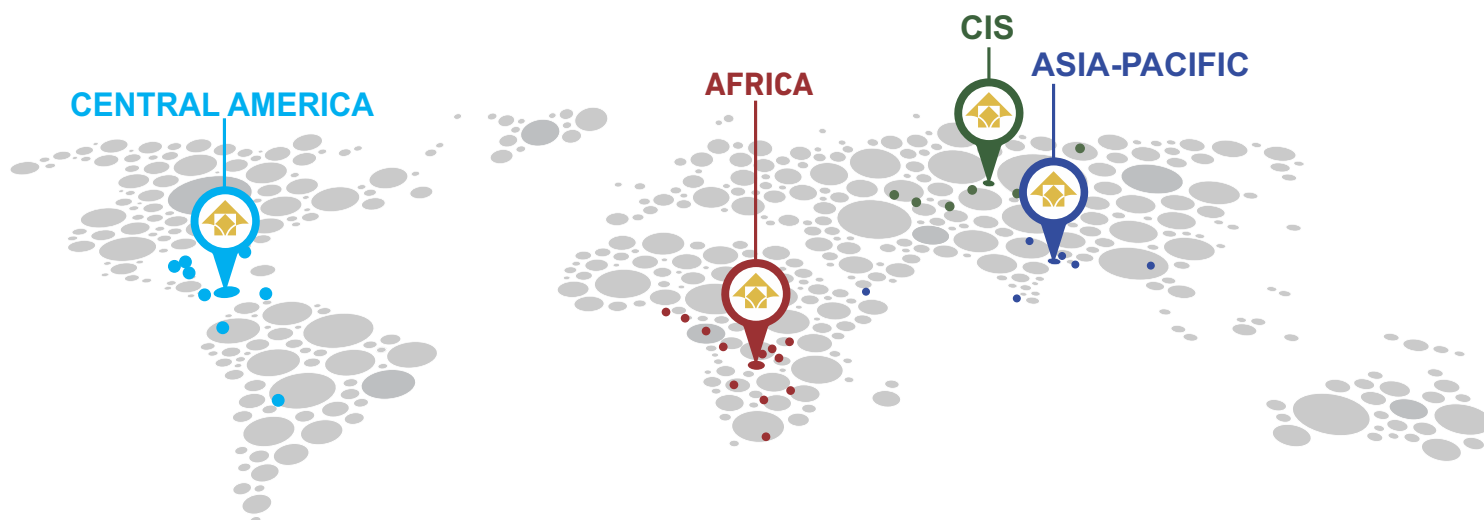

MAKCUR's manufacturing facility is built to comply with WHO guidelines and international quality standards, ensuring comprehensive support for our customers. Each formulation undergoes strict and continuous quality control checks to guarantee its adherence to global benchmarks. Our focus on maintaining these high standards reflects our commitment to delivering safe, reliable, and high-quality products that meet the needs of both domestic and international markets.
