about directsalud

Since 1996, **directsalud** is pioneer in developing and supplying patches, oral films, and wet wipes. We distribute finish products, in terms of private label, in the following areas:

- cosmetics
- medical devices
- food supplements

Therapeutic Indications

Our product portfolio consists of an interesting range of cosmetics, medical devices and food supplements products which are available for marketing & distribution or in-licensing with the brand of the customer. Our product portfolio covers a broad range of therapeutic indications, including:

- Anti-aging
- Gastroenterology
- Oral Care
- Urology
- Cough & Cold
- Insect Repellent
- Pediatrics
- Women's Health
- Fat reduction
- Muscular pain
- Skin-Care
- Wound Care

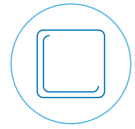

Product Customization

We offer different levels of product customization (private label) as detailed below:

- **Anonymous**
primary packaging.
- **Customized**
primary packaging with customer brand.
- **Finish Pack**
with secondary packaging (outer carton).
- **New developments**
using our innovative technologies can be studied at customer needs.

directsalud also offers **Contract Manufacturing services** using its new technologies:
