Indole-3-Carbinol

60 Vegetable Capsules

 May Protect Cells from Free Radical Damage

 Supports Hormonal Balance

 Helps Maintain Healthy Metabolism

 Vegetarian Friendly

Sulforaphane, the bioactive component abundantly present in cruciferous vegetables such as broccoli, cauliflower, kale, and brussels sprouts, plays a vital role in promoting overall health and well-being. This incredible compound acts as a potent antioxidant, safeguarding cells from oxidative stress and damage caused by harmful free radicals.

By neutralizing these free radicals, sulforaphane helps prevent cellular damage and supports the body's natural defense mechanisms. Its antioxidant properties are particularly crucial in maintaining the integrity of our DNA and other cellular structures, thereby reducing the risk of chronic diseases, including cancer, cardiovascular ailments, and neurodegenerative disorders.
