ABOUT

Novalie is derived from the Latin word "novus" which means "new". Discover Novalie, an emerging pharmaceutical company with the vision to transform health services. We stand out for our dedication to innovation and excellence in marketing high-quality products. At Novalie, we are committed to improving people's lives by embracing solutions that make a difference. Join us on this exciting journey toward a healthier and more vibrant future.

VISION

Novalie vision is to be one of the leading pharmaceutical companies in Europe, attempting to have a wide variety portfolio by expanding the current range of products within the national and international pharmaceutical markets.

MISSION

Novalie mission is to contribute in improving people's health and well-being through having license for an extensive range of specialized Medicine, herbal Medicine and food supplements. Manufacturing these products with high quality ingredients in Europe within EU standards, providing reasonable prices and exporting to South America, Middle East and Africa.

Neurolie

6 Ampules

Vitamin B1, Vitamin B6, Vitamin B12 100mg+100mg+1mg per 3mL,
Intramuscular Use

It is a combination of three essential neurotropic vitamins (B1, B6, and B12) in high dosage. Vitamins B1, B6, and B12 are of special importance for the metabolism in the peripheral and central nervous systems and maintaining cardiovascular functions.

Dopanolov

10 Ampoules

Dopamine 200mg/5mL,
Intravascular Use

Dopamine is a naturally occurring chemical in the body that plays a crucial role in various physiological processes. It is used in medical settings to treat certain conditions and emergencies, such as low blood pressure, shock, and heart-related emergencies.

Ondavalie

10 Ampoules

Ondansetron 8mg/4mL,
Intramuscular Use & Intravascular Use

Since it is a serotonin 5-HT₃ receptor antagonist, it is primarily used to prevent and treat nausea and vomiting caused by chemotherapy, radiation therapy, and surgery by blocking the action of serotonin, a neurotransmitter in the body that triggers the vomiting reflex.

Diclinov

10 Ampule

Diclofenac Sodium 75mg/mL,
Intramuscular Use

It is a medication that belongs to the nonsteroidal anti-inflammatory drug (NSAID) class. It is used for the treatment of pain, inflammation, and swelling caused by various conditions such as arthritis, gout, sprains, strains, and menstrual cramps.

CEFTAZID

Single vial + 10mL water for injection

Ceftazidime pentahydrate 1000mg, Intravascular Use

It is a broad-spectrum third-generation cephalosporin antibiotic used to treat or prevent a variety of bacterial infections, including pneumonia, gynecological infections, bone and joint infections, and septicemia, and is active against *Pseudomonas aeruginosa*, *Escherichia coli*, *Klebsiella pneumoniae*, and *Haemophilus influenzae*.

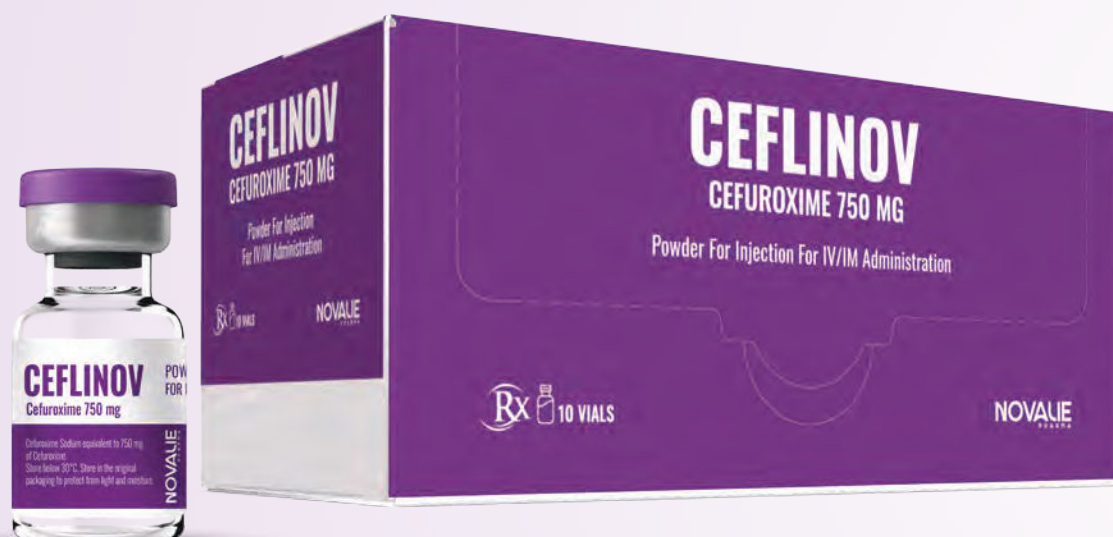

CEFLINOV

10 Vials

Cefuroxime 750mg powder for Intravascular Use & Intramuscular Use injection

Cefuroxime is a second generation broad spectrum bactericidal cephalosporin antibiotic which is resistant to most β -lactamases and is active against a wide range of Gram-positive and Gram-negative organisms.

MEROVALIE

10 Vials

- Meropenem 1000mg powder for Intravascular Use injection.
- Meropenem 500mg powder for IV injection

Meropenem is a broad-spectrum antibiotic that belongs to the carbapenem class of antibiotics. It is used to treat severe infections caused by susceptible bacteria, including complicated intra-abdominal infections, bacterial meningitis, and nosocomial (hospital-acquired) pneumonia.

TAVOFLOX

100mL Solution for Intravascular Use infusion

Levofloxacin (as hemihydrate) 500mg/100mL, Intravascular Use infusion

It is third-generation fluoroquinolone antibiotic with a broad spectrum activity used to treat a wide range of bacterial infections, including respiratory tract infections, skin and soft tissue infections, and urinary tract infections.

TIENALIE

10 Vials

Imipenem /
Cilastatin 500 mg + 500 mg

Imipenem/Cilastatin is a broad-spectrum antibiotic combination from the carbapenem class, commonly used as an empirical choice for treating severe bacterial infections. It is effective against conditions such as complicated intra-abdominal infections, bacterial septicemia, and hospital-acquired pneumonia.

FRUNOV AMP

50 Ampoule

Furosemide 2 ml
ampoules with 20 mg

Furosemide is a potent diuretic used to treat edema associated with heart failure, liver cirrhosis, and renal disease. It is also effective in managing acute pulmonary edema. By increasing urine output, furosemide helps reduce fluid buildup in the body, alleviating symptoms related to these conditions and improving overall fluid balance.

CEFTRIAZONE NOVALIE

1 Vial

Ceftriaxone disodium hemiheptahydrate 1g Powder for injection,

- For IV Administration
- For IM Administration

Ceftriaxone is a broad-spectrum antibiotic from the cephalosporin class, used to treat severe bacterial infections such as pneumonia, meningitis, and infections of the abdomen, joints, skin, urinary tract, and bones. **The disodium hemiheptahydrate salt form** of ceftriaxone offers several advantages: it has enhanced solubility and stability, allows for faster dissolution, and may cause less irritation at the injection site. These properties contribute to its effective and convenient use in both intravenous and intramuscular administration, and it is primarily excreted hepatically, making it safer for patients with impaired kidney function.

MOXALIE

7 Flim coated tablets

Moxifloxacin 400mg

Moxifloxacin is a fourth-generation fluoroquinolone antibiotic. Widely used to treat various bacterial infections. Moxifloxacin exhibits broad-spectrum activity against both Gram-positive and Gram-negative bacteria.

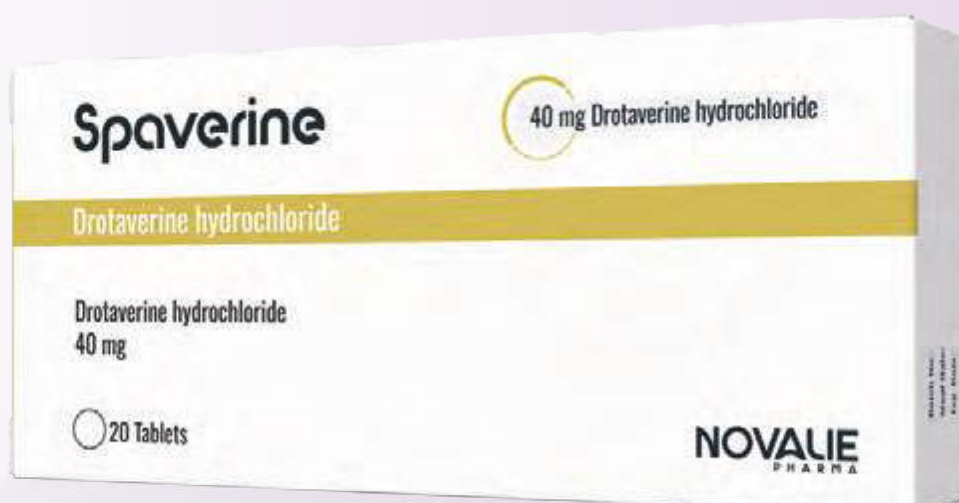

Spaverine

20 Tablets

Drotaverine hydrochloride 40mg

Drotaverine hydrochloride 40mg is an antispasmodic medication used to relieve smooth muscle spasms in the gastrointestinal tract, urinary system, and gall bladder. It helps alleviate pain from conditions like irritable bowel syndrome, menstrual cramps, and kidney stones.

Vilanov

30 Tablets

Vildagliptin 50mg

It is a medication that belongs to a class of drugs called dipeptidyl peptidase-4 (DPP-4) inhibitors. It is primarily used to treat type 2 diabetes mellitus by improving glycemic control.

VILANOV
Vildagliptin

Vilanov Met

60 Flim coated tablets

Vildagliptin 50mg +
Metformin 850mg

It is a combination medication used to treat type 2 diabetes mellitus. It contains two active ingredients: vildagliptin and metformin. The combination of vildagliptin and metformin provides complementary mechanisms of action, leading to better blood sugar control than either medication alone.

Vilanov Met

60 Flim coated tablets

Vildagliptin 50mg +
Metformin 1000mg

It is a combination medication used to treat type 2 diabetes mellitus. It contains two active ingredients: vildagliptin and metformin. The combination of vildagliptin and metformin provides complementary mechanisms of action, leading to better blood sugar control than either medication alone.

Nebivalie

30 Tablets

Nebivolol
hydrochloride 5 mg

Nebivolol hydrochloride 5 mg is a beta-blocker used to treat high blood pressure (hypertension). It works by relaxing blood vessels and slowing the heart rate to improve blood flow and lower blood pressure, reducing the risk of strokes and heart attacks.

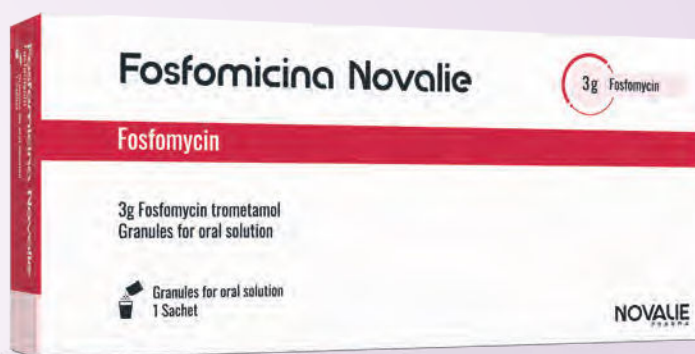

Fosfomicina Novalie

1 Sachet

Fosfomycin Trometamol 3g
granule for oral solution

Fosfomycin Trometamol is a widely recommended antibiotic for the treatment of urinary tract infections (UTIs), highly supported by various clinical guidelines. It is available as granules to be dissolved in water and taken orally. A single 3-gram dose is typically sufficient for effective treatment.

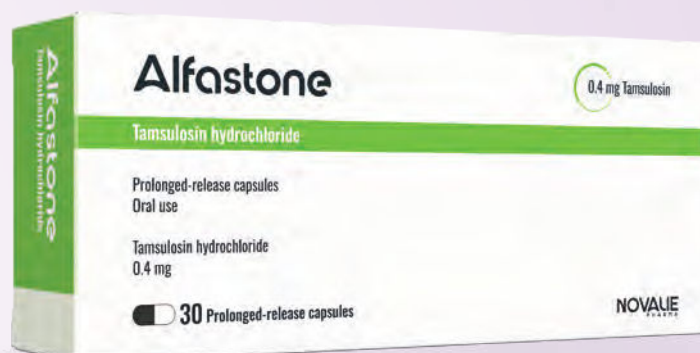

Alfastone

30 Prolonged-release capsules

Tamsulosin
hydrochloride 0.4mg

Tamsulosin hydrochloride 0.4mg is used to treat symptoms of an enlarged prostate (benign prostatic hyperplasia or BPH). It works by relaxing the muscles in the prostate and bladder, making it easier to urinate.

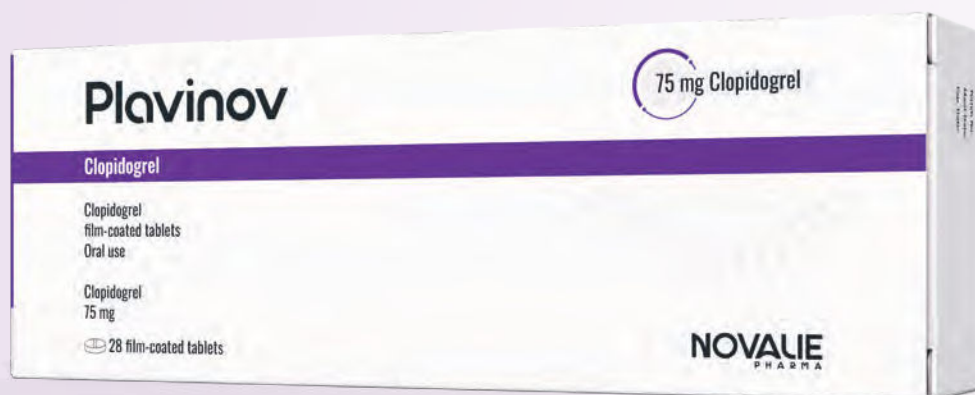

Plavinov

28 Film-coated tablet

Clopidogrel 75mg

Clopidogrel 75mg is an antiplatelet medication used to prevent heart attacks and strokes by reducing the risk of blood clots. It is often prescribed for individuals with heart disease, recent heart attacks, or circulation problems.

NovAspin

30 Gastro-resistant tablets

- Acetylsalicylic acid 75 mg
- Acetylsalicylic acid 100 mg

Acetylsalicylic acid is used to prevent heart attacks and strokes by reducing the risk of blood clot formation. As an antiplatelet medication, it helps ensure smooth blood flow through the blood vessels, lowering the risk of blockages.

Macanov

60 Capsules

Maca Root, Tribulus Terrestris, Black pepper, Eleuthero coccus, Green nettle, Guarana, and Vitamin B6 & B2

As it contains Maca Root and Tribulus promotes potential benefits on hormonal balance, energy levels, and sexual health, improvements in erections and sexual satisfaction through aphrodisiac and testosterone-boosting properties, It contains caffeine as natural stimulant and energy booster, and Eleuthero coccus is potential adaptogenic agent.
