As a responsible corporate citizen, we are also committed to adopt policies and activities that protect the environment.

OUR STORY

UNIQUE HERITAGE & HISTORY – SINCE 1941

How It All Began -

1940 - 1980

BUILDING THE BUSINESS

Ho Yan Hor Herbal Tea has been our longest standing brand since 1940s. The business was first established by our founder, Dr Ho Kai Cheong- the father of Mr. David Ho.

Dr Ho Kai Cheong formulated a unique concoction of 24 specially chosen herbs and developed Ho Yan Hor Herbal Tea. It is effective in relieving body heatness and cures the common cold, by promoting self-healing. During post World War II, Ho Yan Hor herbal tea became a popular alternative to western medicine because of its fast relief of common cold. In 1957, the Flu Epidemic spread throughout the world and killed millions of people. At this time, Ho Yan Hor herbal tea offered an effective solution and became the most sought after household brand to maintain family health until today.

1980s

TRANSFORMATION TO A NEW ERA

The son of Dr Ho Kai Cheong, Mr David Ho, transformed the traditional herbal tea business into a global pharmaceutical company.

ARE
GENERIC DRUGS
EQUIVALENT TO
INNOVATOR DRUGS?

The United States Food and Drug Administration (FDA) has defined bioequivalence (BE) as, “the medicine that is identical or bioequivalent to the innovator medicine in dosage form, safety, strength, route of administration, quality, performance, characteristic and intended use.

BE is a requirement enforced by the DCA, MOH for generics, to ensure quality, safety and efficacy of generics in the oral solid dosage form like tablets and capsules.

Medicinal products are pharmaceutical equivalents if they contain the same amount of the same active substance(s) in the same dosage forms that meet the same or comparable standards.

Hovid's BE centre in Malaysia is adopting the guidelines of the European Medicines Agency (EMA) for the conduct of BE studies for all of its product.

Our standard which is recognized by **15 countries** health authorities

Complies to high manufacturing standard **PIC/s, cGMP, GLP, TGA GMP**

Hovid's registered products are with **BE studies** in accordance to the guidelines of the **European Medicines Agency (EMA)**
