JAMO CHEMICAL

JAMO CHEMICAL BRIEF INTRODUCTION

ABOUT US

- Established in January 2006, Yichang Jamo Chemical Co., Ltd. is headquartered in Yichang Hubei Province, – a city with exquisite nature, profound culture, abundant sociocultural resources. Jamo Chemical is a comprehensive enterprise based on production, combining with networking to build global supply chain services and to expand its business into four major sectors: basic industrial chemicals, pharmaceutical and pesticide intermediates, food additives, as well as water treatment chemicals. With highly clustered resource allocation of various industries, Jamo Chemical can supply high-quality products and provide wholehearted services for customers in a stable, efficient, safe and continuous manner, and has won the trust and support of many clients in this industry.
- Jamo Chemical has been deeply engaged in the chemical industry for many years, and has established its own supply chain service system for basic chemical raw materials, organic solvents, food additives, and pharmaceutical and pesticide intermediates, constantly striving to create a professional, customized, and digital chemical industry model.
- After years of development, we have established long-term friendly cooperative relations with many Chinese and foreign companies by virtue of high-quality products and services, including: Chem China, BASF, Bayer and Marubeni Corporation and etc.,
- The company firmly believes in the innate potential of chemistry to create a better and healthier human life, and works toward realizing it by adhering to the corporate spirit of "integrity, cooperation, innovation, and dedication".Jamo Chemical also envisions a future with itself becoming a "double first-class" enterprise in global fine chemical manufacturing and service – a goal it pursues by assuming the corporate responsibilities of fulfilling the material and spiritual happiness of all employees, satisfying customer demands, and contributing to the progress and development of humanity. Using the aforementioned missions as compass. Jamo Chemical is determined to consistently innovate, persevere against all odds, accelerate structural optimization, maximize potential capitalization, boost efficiency, focus on improving its profit-earning and management competencies, as well as build itself into the most competitive and respected global industry leader with advanced management and outstanding performance.

**INTEGRITY ENTERPRISING COOPERATIVE INNOVATIVE

PRODUCT CATALOG

JAMO CHEMICAL

Solvents	Product Name	Cas No.	Package	Grade	Usage
Dimethyl Sulfoxide(DMSO)		67-68-5	225kg/drum 1100KG/ IBC	Technical Grade	Carbon fiber, Farm chemical
				Pharmaceutical Grade	Pharmaceutical solvents
Dimethyl Sulfide		75-18-3	170KG/DRUM 30MT/TANK	Technical Grade	Used as a solvent and pesticide intermediates
Dimethyl Disulfide(DMDS)		624-92-0	DRUM/TANK	Technical Grade	Used as a solvent and pesticide intermediates
Sodium Thiomethoxide		5188-07-8	DRUM/TANK	Technical Grade	Pesticides, pharmaceuticals and dye intermediates
Phosphate	Product Name	Cas No.	Package	Grade	Usage
Sodium Acid Pyrophosphate(SAPP)		7758-16-9	25kg/bag	Food Grade	Double-Acting Baking Powder, Baking Products
Sodium Hexametaphosphate(SHMP)		10124-56-8	25kg/bag	Food Grade	Artificial maple syrup, canned milk, cheese powders and dips, imitation cheese, whipped topping, roast beef, fish filets, fruit jelly, frozen desserts, salad dressing, herring, breakfast cereal, ice cream, beer, and bottled drinks
				Technical Grade	Diamond Crystal brand Bright & Soft Salt Pellets for water softeners
Sodium Trimetaphosphate(STMP)		7785-84-4	25kg/bag	Food Grade	Flour, pastry products, fruit juice, ice cream, cheese, water softener
Sodium Tripolyphosphate(STPP)		7758-29-4	25kg/bag	Food Grade	Preservative for seafood, meats, poultry, and animal feeds. STPP is used as an emulsifier and to retain moisture.
				Technical Grade	Detergents, ceramics, soap builders, water softeners for industrial water
Terasodium Pyrophosphate(TSPP)		7722-88-5	25kg/bag	Food Grade	Chicken nuggets, marshmallows, pudding, crab meat, imitation crab, canned tuna, and soy-based meat
Monosodium Phosphate(MSP)		7558-80-7	25kg/bag	Food Grade	Animal feed, toothpaste, and evaporated milk
Disodium phosphate(DSP)		7558-79-4	25kg/bag	Food Grade	Desserts and puddings
				Technical Grade	Detergents and cleaning agents
Trisodium Phosphate((TSP))		7601-54-9	25kg/bag	Food Grade	Acidity regulators
				Technical Grade	Cleaning, degreasing, and deglossing of walls
Tricalcium Phosphate(TCP)		7758-87-4	25kg/bag	Food Grade	Anticaking agent, baby powder, antacids and toothpaste
Monocalcium phosphate(MCP)		7758-23-8	25kg/bag	Food Grade	Baking powder
Monoammonium Phosphate(MAP)		7722-76-1	25kg/bag	Food Grade	Baking foods
				Technical Grade	Fertilizer ,fire retardant
Diammonium Phosphate (DAP)		7783-28-0	25kg/bag	Food Grade	Baking foods
				Technical Grade	Fertilizer ,fire retardant
Monopotassium phosphate(MKP)		7778-77-0	25kg/bag	Food Grade	Energy beverages, nutrient source
Dipotassium phosphate (DKP)		7758-11-4	25kg/bag	Food Grade	Imitation dairy creamers, dry powder beverages and mineral supplements
				Food Grade	Chicken nuggets,crab meat, imitation crab, canned tuna, and soy-based meat
Tetrapotassium Pyrophosphate (TKPP)		7320-34-5	25kg/bag	Food Grade	Chicken nuggets,crab meat, imitation crab, canned tuna, and soy-based meat
				Technical Grade	Cyanide-free plating, detergents, ceramics, clay, latex, pigments
Flame Retardants	Product Name	Cas No.	Package	Grade	Usage
Tetrakis (Hydroxymethyl) Phosphonium Sulfate (THPS)		55566-30-8	250kg/drum	Technical Grade	Flame-retardant product,antiseptic,Water purification
Sodium Hypophosphite(SHPP)		7681-53-0	25kg/bag	Technical Grade	Electronics, aviation mechanisms, and in petroleum fields,interface activator, a thermo-stabilizer for synthetic resins
Basic Chemical Raw Materials	Product Name	Cas No.	Package	Grade	Usage
Phosphoric acid(PA)		7664-38-2	35kg/drum 330KG/drum 1100KG/ IBC	Food Grade	pH adjuster in cosmetics and skin-care products, acid -flavored agents in colas and jams,sanitizing agent in the dairy, food, and brewing industries
				Technical Grade	Prevent iron oxidation, anti-rust,
sodium carbonate		497-19-8	50kg/bag	Food Grade Technical Grade	Washing soda Glass manufacture Water softening, Food additive and cooking
Sodium hydroxide		1310-73-2	25kg/bag	Food Grade Technical Grade	Sodium salts and detergents
Citric Acid		77-92-9	25kg/bag	Food Grade	Acidulant, flavoring agent, preservative and antistaling agent in food and beverage industry
Sodium bicarbonate		144-55-8	25kg/bag	Food Grade Technical Grade	Leavening agent, mild disinfectant ,baking powder,fire extinguisher
Electronic material	Product Name	Cas No.	Package	Grade	Usage
Barium hydroxide		17194-00-2	25kg/bag	Technical Grade	Insecticide, rubber industry, special soap, hard water softening, boiler descaling, glass lubrication, barium salt preparation, medicine, etc.
Barium chloride		10361-37-2	25kg/bag	Technical Grade	Metal heat treatment, barium salt preparation, chlor alkali, etc.
Precipitated barium sulphate		7727-43-7	25kg/bag	Technical Grade	Various coatings, medium and high grade ink, medicine, synthetic chemical industry, rubber, paper, ceramics, cosmetics and other fields.
Preservative	Product Name	Cas No.	Package	Grade	Usage
Potassium sorbate		24634-61-5	25kg/bag	Food Grade	Apple cider,baked goods,canned fruits and vegetables,cheeses,dried meats,dried fruit.
Health products	Product Name	Cas No.	Package	Grade	Usage
Methyl Sulfone(MSM)		67-71-0	25kg/drum	Pharmaceutical Grade	Gas chromatography, analytical reagents, food additives and drugs
