What is QuatrePure?

QuatrePure is your daily boost for better health powered by **Quatrefolic®**, the most advanced and bioavailable form of folate (vitamin B9). Each capsule delivers **400 mcg of active folate**, ready for your body to use immediately—no conversion needed.

Unlike standard folic acid, which your body must process before it becomes usable, **Quatrefolic®** is already in its active form: **(6S)-5-methyltetrahydrofolate (MTHF)**. That means **immediate effectiveness** and **better absorption**.

Why Choose QuatrePure?

Scientifically Advanced

Quatrefolic® is a 4th-generation folate, developed for superior absorption, stability, and bioavailability.

Clean, Effective, and Simple

Each once-daily capsule delivers 400 mcg of high-quality folate—fitting effortlessly into your wellness routine.

Vital Support, Every Day

- 1 Healthy maternal tissue growth during pregnancy
- 2 Normal blood formation
- 3 Proper immune and psychological function
- 4 Reduced tiredness and fatigue
- 5 Amino acid synthesis and healthy cell division

Who is QuatrePure for?

Whether you're preparing for pregnancy, supporting immune health, or simply prioritizing everyday wellness, QuatrePure is for **anyone seeking effective, high-quality folate support**—without compromise.

1 box contains 60 capsules.

Directions for use: Take one to two capsules daily.
