

REFERENCE MATERIALS

Reference materials and analytical standards for method verification and quality control.

4,780+ Products

PRODUCT LINE OVERVIEW

1. Organic Analytical Standards

2. Inorganic / Metal Standard Solutions

3. Environmental Analytical Standards

4. Food & Pesticide Residue Testing Standards

5. Pharmaceutical & Life Science Standards

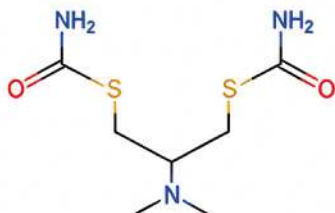

6. Standards for Instrumental Analysis

FEATURED PRODUCTS

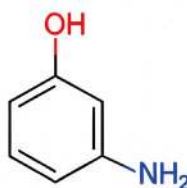

Cartap

CAS: 15263-53-3

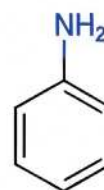

3-Aminophenol

CAS: 591-27-5

Aniline Standard Solution

CAS: 62-53-3

WHY CHOOSE ALADDIN REFERENCE MATERIALS

Reliable Quality

Strict quality control to support analytical verification and quality control

Comprehensive Information

CAS No., molecular formula, molecular weight, SMILES, InChIKey, and other information are clear and complete

Wide Applications

Covering environmental, food, pharmaceutical, chemical analysis, and instrument-support applications

Easy Selection

Quickly filter by analyte, application scenario, certification, or traceability requirements

PRODUCT INFORMATION DISPLAY

CAS No.

EC No.

Molecular Formula

APPLICATION SCENARIOS

Calibration

Method Validation

Identification

System Suitability

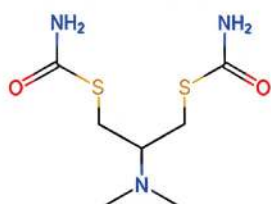

Quality Control

FEATURED PRODUCT EXAMPLES

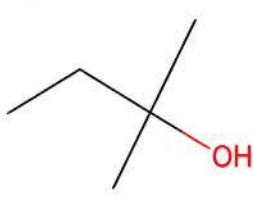

Cartap

CAS: 15263-53-3

tert-Amyl Alcohol

CAS: 75-85-4

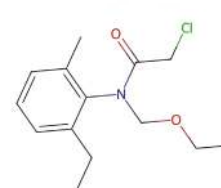

Aluminum Standard Solution

CAS: 7429-90-5

Acetochlor Standard Solution

CAS: 34256-82-1
