

Specialized Integrated CDMO One-Site-Stop

Your solution partner from drug Substance to Drug Product into the same site

Drug Substance

- Process development & optimization, clinical & commercial supply
- Cryogenic reactions
- Hydrogenation
- Customized Off Patent APIs
- Highly potent APIs, cat. 3a and 3b
- API+ (Drug Product Intermediate)
- Analytical method development & validation
- Proven track record in Quality by Design

Particle Engineering

- Solubility enhancement
- Amorphous Solid Dispersions
- Inhalation
- Controlled release
- Development by Design™

Drug Product

- High containment
- High precision capsule filling
- Tableting / Film coating / Dry granulation
- Oral and Inhaled dosage forms
- Continuous Tableting using wet granulation, dry granulation or direct compression
