Our Expertise

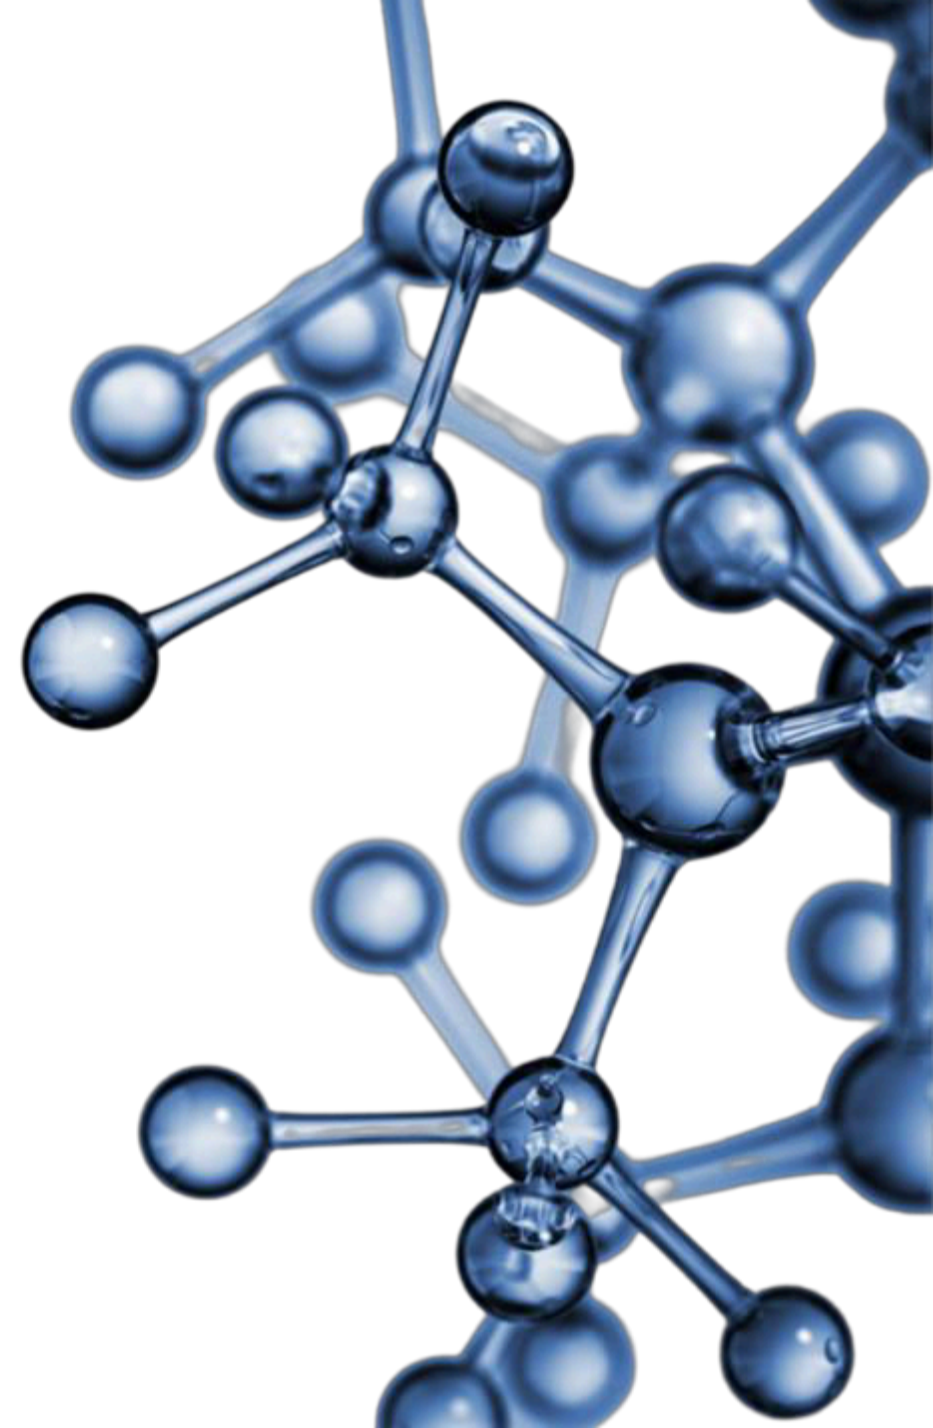

Steroid API specialist,
serving globally for 20+ years

Our Ethos

Partnering through symbiosis,
service with a human touch

Our Edge

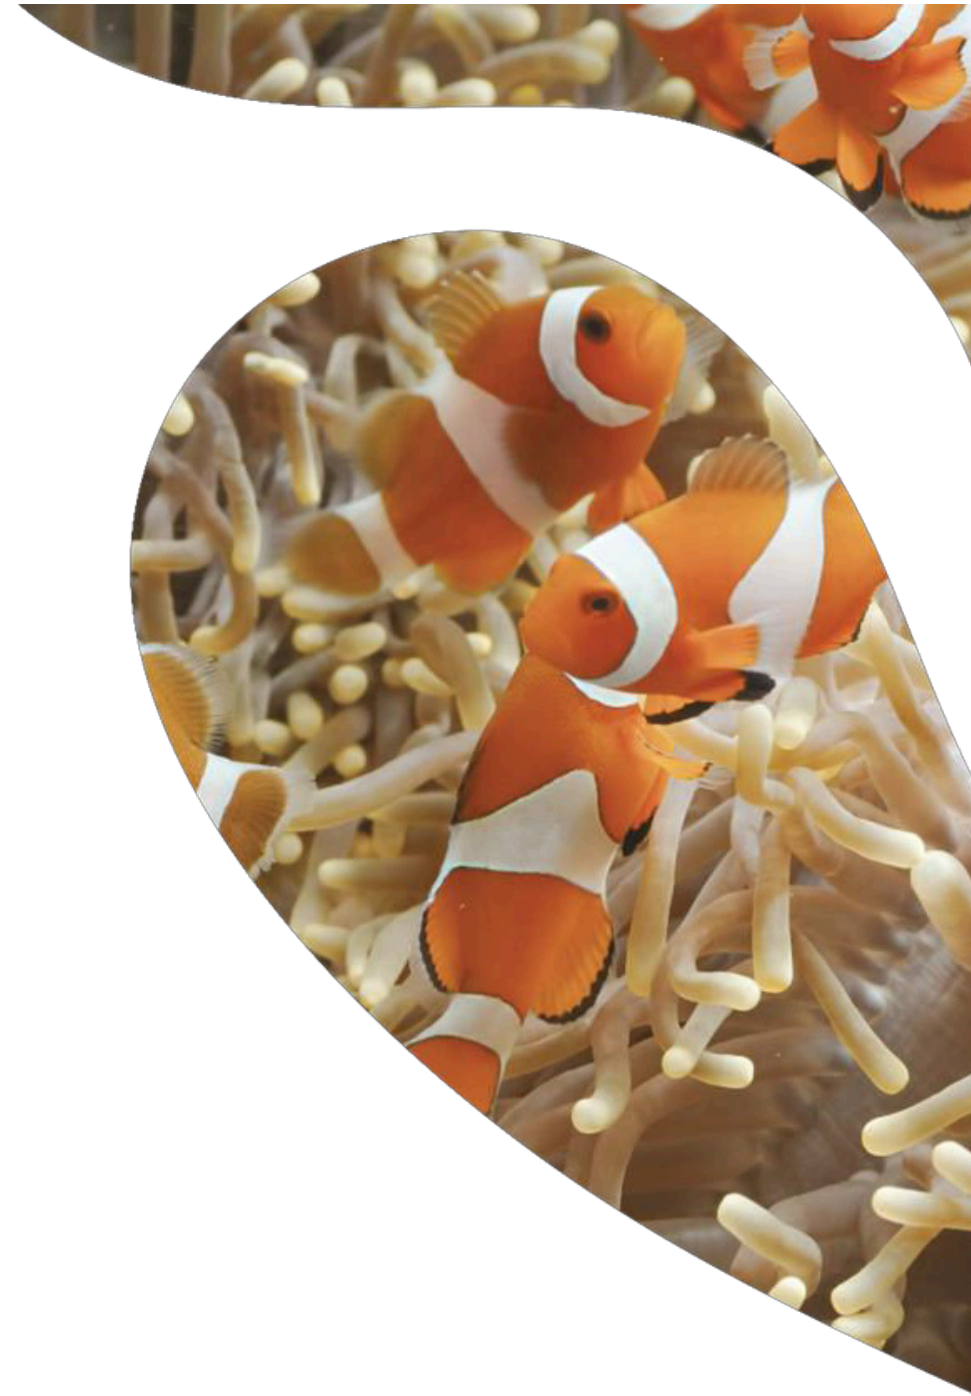

Uniquely in Malaysia,
bridging East and West

Who Are We

Symbiotica is one of few companies globally that manufactures both niche & commercial steroids, steroidal hormones and Non-Steroids range of API's

This approach is highly advantageous as, it allows clients to work with the single approved vendor for multiple API's within the same segment, streamlining regulatory documentation and simplifying audit process.

End-to-end API Solutions and Capabilities

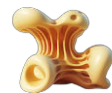

Steroids

Robust portfolio of corticosteroids and steroidal hormones

Non-Steroids

Niche APIs coupled with customised service

Custom Manufacturing

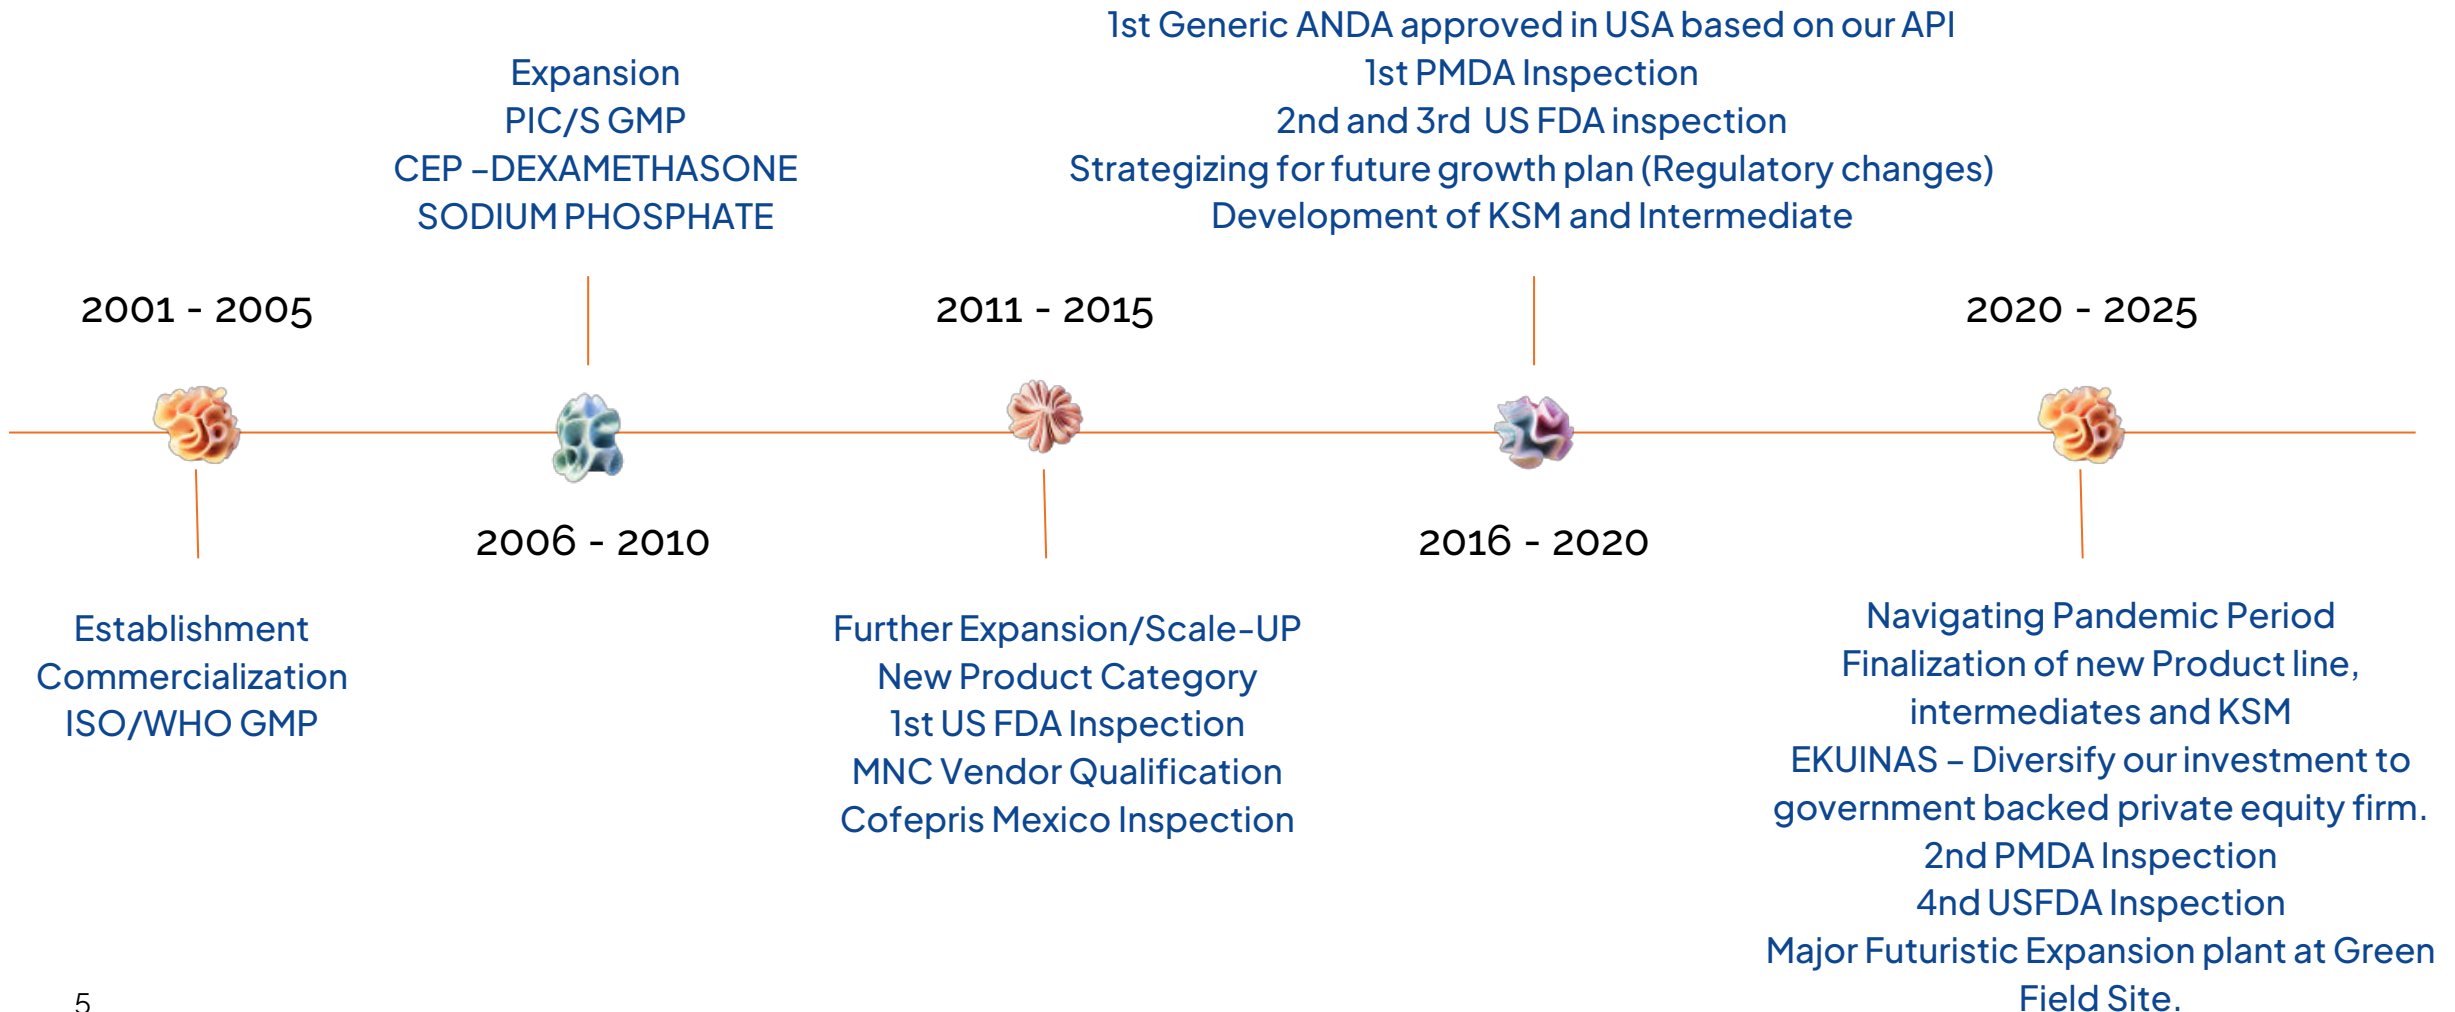

Tailored manufacturing solutions with scalability to support development to commercial production

API Processes

Expertise in complex chemical processing offering versatility across each stage of API production
