A story worth telling

UNI-PHARMA KLEON TSETIS PHARMACEUTICAL LABORATORIES SA

57 years of value creation in the pharma industry:

A story worth telling

Kleon Tsetis, a restless pharmacist and researcher, with a vision to strengthen the position of Greek manufacturing in the pharmaceutical industry, established Uni-Pharma in 1963 with the mission of improving the quality of life of our fellow men by facilitating access to treatment with Innovative, high-quality, GMP and cost-efficient pharmaceutical products. Since its establishment, UNI-PHARMA has been researching, developing, manufacturing and marketing pharmaceuticals of the highest quality, covering all major therapeutic categories, with innovative highlight brands such as APOTEL[®], T4[®] and SALOSPIR

Uni-Pharma's vision is to be among the leaders of the constantly changing pharmaceutical landscape, by offering high-quality products to patients worldwide.

Since its foundation, Uni-Pharma has grown from a small privately-held company into a large and dynamic organization, which currently holds the leading position in unit sales among Greek-owned companies in the domestic market. In order to sustain this growth, Uni-Pharma actively explores collaboration potential with commercial partners and academic Institutions, on a global scale, while tirelessly investing in technology and manufacturing excellence. Through undaunted efforts, Uni-Pharma's reach today extends to five continents and 47 countries within the Group's international network which exports to over 66 countries, leveraging on growth opportunities around the globe. UNI-PHARMA exports high-technology and innovative products under its own brands, creating value and contributing to the great national effort of re-shaping the character and dynamic of Greece's economy.

Research & Patents

With regard to research, the firm has expanded far beyond the realm of pharmaceutical technology and innovation, as it has already filed/holds 62 national patent applications/patents, certain of which granted in more than 60 countries worldwide. Only in the past three years, the firm has filed 22 new national and international patent applications in the fields of pharmaceutical active substance development and novel pharmaceutical and nutritional compositions.

The most prominent token of UNI-PHARMA's commitment in multi-dimensional business development and source of competitive advantage is a new, state-of-the-art industrial plant in Attica, which is the largest investment made in the Greek pharmaceutical industry in recent years. The new facilities are a model for safety, efficiency and automation. The bioclimatic design, allows a significant reduction in the site's energy consumption footprint, coupled with other best sustainability practices, while being in full harmony with the surrounding environment, whereas fully automated and digitized production and control systems maximize effort and output.

Business Development

At Uni-Pharma we strive to drive value by enriching our resources and capabilities through expansion of our network of collaborators.

We are seeking to identify new opportunities, diversify our portfolio and engage partners in the development of innovative solutions that will deliver maximum value to patients and healthcare professionals. From conceptualization of new products to every stage of development, dossier compilation, registration and commercialization, we focus our efforts in aligning our objectives with a global network of business partners and enablers, through a diversity of business models. You have a business idea? Share it with our team!

Our production and facilities

UNI-PHARMA's headquarters and production sites are located in Kifissia, where they are manufactured and packed:

- pharmaceutical solids: various tablet forms (plain, coated, controlled release), capsules, granules in sachets and low humidity products (effervescent tablets & granules as well as soluble granules & powders in sachets)
- semi-solids: creams, ointments, gels and suppositories
- liquids: oral solutions (syrups, elixirs and suspension in bottles, solution in drops and monodose vials) and liquids for external use
- injectables: injectable products, either by sterile filtration or by final sterilization

Production plants have a total area of 14,000 m², out of which 12,400 m² are production and packaging areas. An independent warehouse of 11,000 m² is used for the handling and storage of finished products and also as a distribution outlet.

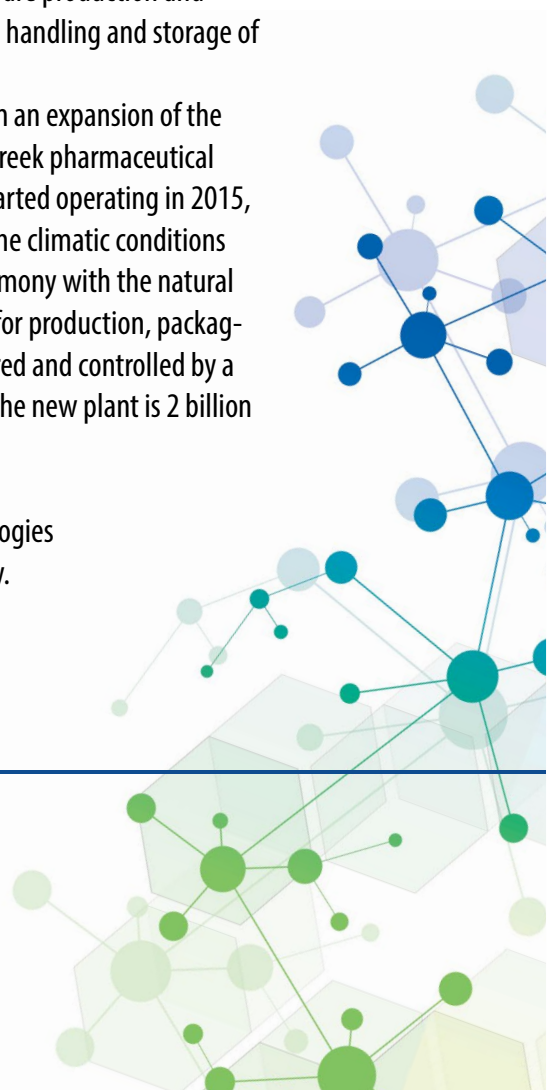

The production facilities that UNI-PHARMA owns today, have resulted from an expansion of the first manufacturing plants, through the largest recent investment in the Greek pharmaceutical industry. The new production plant, which was completed in 2012 and started operating in 2015, is a standard of bioclimatic application, geared to the full exploitation of the climatic conditions for its operation while reducing every energy-intensive process, in full harmony with the natural environment. It is equipped with the most advanced technology systems for production, packaging and quality control, while all the processes that take place are monitored and controlled by a new, innovative modern electronic system (BMS). Production capacity of the new plant is 2 billion tablets and 50 million units of injection per year.

Uni-Pharma manufactures pharmaceutical products of innovative technologies for drug delivery of the highest quality, promising effectiveness and safety.

Pharmaceutical Laboratories S.A.

Our mission is to produce directly accessible products of high technical specifications.

DIABETES MELLITUS

MEDICINAL PRODUCTS

Pharmaceutical Laboratories S.A.

Diabetes Mellitus

Glibenclamide

ASUGRIN®

INDICATIONS

For diabetes type II

FORMS & PACKAGING

TABLETS:

5mg BT x 30

Glimepiride

ANOVIS®

INDICATIONS

It is indicated for the therapeutic treatment of Diabetes type II, when this type of diabetes is not properly controlled by diet, exercise and weight loss alone.

FORMS & PACKAGING

TABLETS:

1mg BT x 30

TABLETS:

2mg BT x 30

TABLETS:

3mg BT x 30

TABLETS:

4mg BT x 30

Metformin hydrochloride

GLYCOFREN®

INDICATIONS

Treatment of type 2 diabetes mellitus, particularly in overweight patients, when dietary management and exercise alone does not result in adequate glycaemic control.

FORMS & PACKAGING

FILM COATED TABLETS:

850mg metformin HCL/tab

BT x 20, 28, 30, 40, 42, 50, 56, 60, 70,
80, 84, 90, 98, 100, 120, 180, 200,
300, 400 tabs

or BT x 90, 100, 400 & 500 tabs

FILM COATED TABLETS:

1000mg metformin HCL/tab

BT x 20, 28, 30, 40, 42, 50, 56, 60, 70,
80, 84, 90, 98, 100, 120, 180, 200,
300, 400 tabs

or BT x 60, 90, 400 & 500 tabs

THYROID GLAND DISORDERS

MEDICINAL PRODUCTS

Pharmaceutical Laboratories S.A.

Thyroid Gland Disorders

Thiamazole **UNIMAZOLE®** INDICATIONS

Hyperthyroidism.

FORMS & PACKAGING

TABLETS:
5mg Methimazole / tablet
(BT x 60 tablets)
(BT x 100 tablets)
(BT x 125 tablets)

TABLETS:
10mg Methimazole / tablet
(BT x 60 tablets)

TABLETS:
20mg Methimazole / tablet
(BT x 60 tablets)

Liothyronine Sodium **T3®**

INDICATIONS

Substitution therapy of hypothyroidism, non-toxic goiter, self-immunized thyroiditis, thyroid cancer etc.

FORMS & PACKAGING

TABLETS:
20 mcg/tab (BT x 30)
25 mcg/tab (BT x 30)

Levothyroxine Sodium + Liothyronine Sodium **DITHYRON®**

INDICATIONS

Substitution therapy of thyroid function in hypothyroidism of any kind. Therapy of sub acute and chronic thyroiditis (Quervain and Hashimoto's diseases). Inhibitive therapy in non toxic goitre and thyrogenic carcinoma.

FORMS & PACKAGING

TABLETS:
(50 + 12.5)mcg/tab
(BT x 30 tabs)

Pharmaceutical Laboratories S.A.

Thyroid Gland Disorders

Levothyroxine Sodium

T4[®]

INDICATIONS

Hypothyroidism.

FORMS & PACKAGING

TABLETS:

12 mcg Levothyroxine Sodium
/tablet (BT x 30 tablets)

TABLETS:

25 mcg Levothyroxine Sodium
/tablet (BT x 30 tablets)

TABLETS:

50 mcg Levothyroxine Sodium
/tablet (BT x 30 tablets)

TABLETS:

62 mcg Levothyroxine Sodium
/tablet (BT x 30 tablets)

TABLETS:

75 mcg Levothyroxine Sodium
/tablet (BT x 30 tablets)

TABLETS:

88 mcg Levothyroxine Sodium
/tablet (BT x 30 tablets)

TABLETS:

100 mcg Levothyroxine Sodium
/tablet (BT x 30 tablets)

TABLETS:

112 mcg Levothyroxine Sodium
/tablet (BT x 30 tablets)

TABLETS:

125 mcg Levothyroxine Sodium
/tablet (BT x 30 tablets)

TABLETS:

137 mcg Levothyroxine Sodium
/tablet (BT x 30 tablets)

TABLETS:

150 mcg Levothyroxine Sodium
/tablet (BT x 30 tablets)

TABLETS:

175 mcg Levothyroxine Sodium
/tablet (BT x 30 tablets)

TABLETS:

200 mcg Levothyroxine Sodium
/tablet (BT x 30 tablets)

Levothyroxine Sodium

T4[®]

INDICATIONS

Hypothyroidism.

FORMS & PACKAGING

ORAL DROPS SOL:

100 mcg Levothyroxine Sodium
/bottle (BT x 1 bottle x 30 ml)

Pharmaceutical Laboratories S.A.

Thyroid Gland Disorders

Propylthiouracil

PROTHURIL®

INDICATIONS

Hyperthyroidism.

FORMS & PACKAGING

TABLETS:

50mg Propylthiouracil/tablet
(BT x 60 tablets)

Levothyroxine Sodium

THYROFIX®

INDICATIONS

Substitution therapy of thyroid function in hypothyroidism of any kind. Therapy of sub acute and chronic thyroiditis (Quervain and Hashimoto's diseases). Inhibitive therapy in non toxic goitre and thyrogenic carcinoma.

FORMS & PACKAGING

TABLETS:

13 mcg/tab (BT x 100)
25 mcg/tab (BT x 100)
50 mcg/tab (BT x 100)
62 mcg/tab (BT x 100)
75 mcg/tab (BT x 100)
88 mcg/tab (BT x 100)
100 mcg/tab (BT x 100)
112 mcg/tab (BT x 100)
125 mcg/tab (BT x 100)
137 mcg/tab (BT x 100)
150 mcg/tab (BT x 100)
175 mcg/tab (BT x 100)
200 mcg/tab (BT x 100)

NERVOUS SYSTEM DISORDERS

MEDICINAL PRODUCTS

Pharmaceutical Laboratories S.A.

Nervous System Disorders

Betahistine Dihydrochloride

ANTIVOM®

INDICATIONS

Vertigo and hearing disturbances
in labyrinthine disorders. Meniere's syndrome.

FORMS &
PACKAGING

TABLETS:

8mg Betahistine Dihydrochloride/tablet
(BT x 30 tablets) & (BT x 50 tablets)

TABLETS:

16mg Betahistine Dihydrochloride/ tablet
(BT x 30 tablets) & (BT x 50 tablets)

TABLETS:

24mg Betahistine Dihydrochloride/tablet
(BT x 30 tablets) & (BT x 50 tablets)

DROPS:

8mg Betahistine Dihydrochloride/ml
(Bottle of 30 ml)

OR.DISP.TABS:

24mg Betahistine
Dihydrochloride/tablet
(BT x 30 tablets) &
(BT x 60 tablets)

Piracetam

OXYNIUM®

INDICATIONS

Cerebral stimulant, allowing better cerebral oxygenation.
Cerebral infarction. Psychobehavioral disorders in cerebral aging.

FORMS &
PACKAGING

FILM COATED TABLETS:

1.200mg
Piracetam/film coat tablet
(BT x 30 f.c. tablets)

COATED TABLETS:

800mg
Piracetam/film coat tablet
(BT x 30 f.c. tablets)

INJECTABLE SOLUTION:

Inj. sol. 1000mg/5ml amp.
(BT x 12 amps x 5ml)
(BT x 3 amps x 5ml)

ORAL SOLUTION (VIALS):

1.250mg Piracetam/10ml
(BT x 20 divided-dose vials
of 10mls)

Pharmaceutical Laboratories S.A.

Nervous System Disorders

Hydroxyzine HCl **IREMOFAR®**

INDICATIONS

Anxiety, adjunctive treatment in stress related urticaria.

FORMS & PACKAGING

FILM COATED TABLETS:

25mg Hydroxyzine HCl/film coated tab.
(BT x 30 f.c.tablets)

ORAL SOLUTION:

10mg Hydroxyzine HCl/5ml
(Bottle of 150 ml)

Levetiracetam **ESSION®**

INDICATIONS

Antiepileptics.

FORMS & PACKAGING

GRANULES FOR ORAL SOLUTION:

500mg Levetiracetam/sachet
(BT x 30 sachets)

GRANULES FOR ORAL SOLUTION:

1000mg Levetiracetam/sachet
(BT x 30 sachets)

PAIN & FEVER

MEDICINAL PRODUCTS

Pharmaceutical Laboratories S.A.

Pain & Fever

Paracetamol + Ascorbic acid **APOTEL C-500®**

INDICATIONS
Analgesic-Antipyretic

FORMS & PACKAGING

EFFERVESCENT TABLETS:

500 mg Paracetamol + 300 mg Vitamin C/eff.tab.
(BT x 12 eff.tabs)

Paracetamol **APOTEL®**

INDICATIONS
Antipyretic-Analgesic

FORMS & PACKAGING

TABLETS:

500mg Paracetamol/tablet
(BT x 20 tablets)

TABLETS:

1000mg Paracetamol/tablet
(BT x 8 tablets)
(BT x 16 tablets)

EFFERVESCENT TABLETS:

500 mg Paracetamol
(BT x 12 eff.tablets)

COATED TABLETS:

500 mg Paracetamol
(BT x 20 coated tablets)

ORAL SOLUTION DROPS:

100 mg Paracetamol/ml
(Bottle of 30 ml & Dosemeter
droplet counter)

SUPPOSITORIES:

125 mg Paracetamol
(BT x 5 suppositories)

SYRUP:

120 mg Paracetamol/5ml
(Bottle of 120 ml)

EFFERVESCENT GRANULES:

80mg BT X 10sach
160mg BT X 10sach
500mg BT X 10sach

SUPPOSITORIES:

250 mg Paracetamol
(BT x 5 suppositories)

SUPPOSITORIES:

500 mg Paracetamol
(BT x 5 suppositories)

ELIXIR:

120mg/5ml FI X 60ml

SOL. INF:

600mg/4ml BT X 3

Paracetamol **APOTEL® HOT Lemon & Honey**

HOT REMEDY

INDICATIONS
Analgesic-Antipyretic

FORMS & PACKAGING

EFFERVESCENT GRANULES:

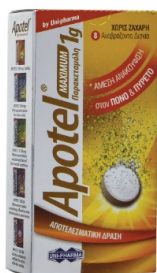

1000mg Paracetamol/sachet
(BT x 20 sticks)
(BT x 20 sachets)

Pharmaceutical Laboratories S.A.

Pain & Fever

Paracetamol **APOTEL® MAXIMUM 1g**

INDICATIONS

Analgesic-Antipyretic

FORMS &
PACKAGING

EFFERVESCENT TABLETS:

1000mg Paracetamol / effervescent tablet
(BT x 8 eff. tablets)

Paracetamol **APOTEL PROPOLIS®**

WITH PROPOLIS EXTRACT

INDICATIONS

Analgesic-antipyretic.

FORMS &
PACKAGING

EFFERVESCENT GRANULES:

1000 mg Paracetamol/stick
(BT x 20 sticks)

Paracetamol **APOTEL®**

INDICATIONS

Analgesic-antipyretic. It is indicated for the short term management of mild pain, especially after surgical operations. It is also indicated for the short term management of fever, when the intravenous administration is clinically justified in an emergency case, for the management of pain or hyperthermia and/or when other routes of administration are not possible.

FORMS &
PACKAGING

SOL.IV.INF:

1000mg Paracetamol/6.7ml AMP (BT x 3 amps)

Paracetamol **APOTEL® MAX**

INDICATIONS

Analgesic-antipyretic. It is indicated for the short term management of mild pain, especially after surgical operations. It is also indicated for the short term management of fever, when the intravenous administration is clinically justified in an emergency case, for the management of pain or hyperthermia and/or when other routes of administration are not possible.

FORMS &
PACKAGING

Solution for infusion:

1g/100 ml
BT x 3 vials x 100ml
BT x 12 vials x 100ml

BT x 3 bags x 100ml
BT x 12 bags x 100ml

Pharmaceutical Laboratories S.A.

Pain & Fever

Paracetamol + Caffeine

APOTEL EXTRA®

INDICATIONS

Antipyretic-Analgesic

FORMS & PACKAGING

EFFERVESCENT TABLETS:

500mg Paracetamol + 65mg Caffeine/eff. tablet
(BT x 12 eff. tabs)

TABLETS:

500mg Paracetamol + 65mg Caffeine /tablet
(BT x 10 tablets)
(BT x 12 tablets)
(BT x 16 tablets)

Paracetamol + Lidocaine HCl

APOTEL PLUS®

INDICATIONS

In the management of pain in surgery and particularly in post-surgical conditions and in the management of neoplastic pain as well. It is also indicated for the symptomatic therapy fever due to infections and neoplasma.

FORMS & PACKAGING

INJECTABLE SOLUTION:

600mg Paracetamol + 20mg Lidocaine HCl/4ml
(BT x 3 amps) & (BT x 5 amps)

Acetylsalicylic acid + Paracetamol + Caffeine

SPLENTIR®

INDICATIONS

Mainly indicated for the treatment of:

Mild to moderate pain (headaches, neuralgia, myalgia, arthralgia, toothache, dysmenorrhea).

Less effective at: Pain management in trauma or postpartum pain.

As an antipyretic in: Feverish conditions.

FORMS & PACKAGING

TABLETS

400 mg acetylsalicylic acid + 200 mg paracetamol + 50 mg caffeine:
BT X 10
BT X 50 (blister 5x10)
BT X 30 (blister 3x10)

EFFERVESCENT TABLETS

400 mg acetylsalicylic acid + 200 mg paracetamol + 50 mg caffeine:
BT X 12

Paracetamol + N-Acetylcysteine + Pseudoephedrine hydrochloride + Chlorphenamine maleate

TREBON GRIPPE® DAY & NIGHT

INDICATIONS

Analgesic, Antipyretic, Decongestant, Mucolytic, Antihistamine

FORMS & PACKAGING

BT x 16 eff. tablets

(day tabs 3 x 4 + night tabs: 1 x 4)

DAY TABLETS: 500mg Paracetamol + 200mg N-Acetylcysteine + 40mg Pseudoephedrine hydrochloride / eff. tablet

NIGHT TABLETS: 500mg Paracetamol + 4mg Chlorphenamine maleate /eff. tablet

Pharmaceutical Laboratories S.A.

Pain & Fever

Orphenadrine Citrate + Paracetamol

UNIGESIC®

INDICATIONS

Skeletal muscle relaxant with analgesic.

- Tension headache, occipital headaches associated with spasm of skeletal muscles in the region of the head and neck.
- Acute or chronic low back pain.
- Acute and traumatic conditions of the limbs and trunk: sprains, strains, whiplash injuries, acute torticollis, prolapsed intervertebral disc.
- Non-articular rheumatism (fibrositis, myositis and myalgia) associated with muscle spasm.

FORMS &
PACKAGING

TABLETS

35 mg orphenadrine citrate + 450 mg paracetamol:
BT x 30 tablets

Paracetamol + Ibuprofen

UNITEK®

INDICATIONS

Mild to moderate pain (headaches, neuralgia, myalgia, arthralgia, toothache, dysmenorrhea).

FORMS &
PACKAGING

FC TABLETS:

500 mg paracetamol + 200 mg ibuprofen /fc tab
(BT x 20 FC TABS)
(BT x 30 FC TABS)

NON-STEROIDAL ANTI-INFLAMMATORY

MEDICINAL PRODUCTS

Pharmaceutical Laboratories S.A.

Non-steroidal anti-inflammatory

Ketoprofen **DRASTIREL®**

INDICATIONS

Treatment of rheumatoid arthritis, osteoarthritis, ankylosing spondylitis and other musculoskeletal conditions, including synovitis, tendonitis and low back pain. It is also useful to relieve the pain of acute gout and dysmenorrhoea.

FORMS & PACKAGING

CAPS: 50mg Ketoprofen
BT x 30 capsules

CON. R. CAPS.: 200mg Ketoprofen (BT x 14 capsules)

SUPPOSITORIES: 100mg/SUPP. (BT x 12)

CREAM EXT. USE: 2,5%
Tube of 50g

INJECTABLE SOLUTION:
100mg/2ml AMP (BT x 5 amps)

CAPS: 50mg/cap (BT x 30)

Aceclofenac **IASAN®**

INDICATIONS

Relief of the pain and inflammations in osteoarthritis, rheumatoid arthritis and ankylosing spondylitis.

FORMS & PACKAGING

F.C.TABLETS:
100MG BT X 30 & BT X 40

Acetylsalicylic acid **SALOSPIR®**

INDICATIONS

Pain of mild to moderate severity, fever, thrombosis.

FORMS & PACKAGING

GASTRO-RESISTANT TABLETS:
500mg Acetylsalicylic Acid/gr. tablets
(BT x 20 gr. tablets)
(BT x 50 gr. tablets)

TABLETS:
500 mg Acetylsalicylic Acid/tabs
(BT x 20 tablets)

EFFERVESCENT TABLETS:
500mg Acetylsalicylic Acid/eff. tablets
(BT x 12 eff. tablets)

Pharmaceutical Laboratories S.A.

Non-steroidal anti-inflammatory

Acetylsalicylic acid & Ascorbic acid **SALOSPIR C-500®**

INDICATIONS

Analgesic, Antipyretic.

FORMS &
PACKAGING

EFFERVESCENT TABLETS:

500mg Acetylsalicylic Acid + 300 mg Vitamin C
eff. tab. (BT x 12 eff. tabl)

Diclofenac Sodium **MINIFLAM®**

INDICATIONS

Relief from symptoms of inflammation such as swelling and pain in various conditions: musculoskeletal and joint disorders, peri-articular disorders, soft-tissue disorders. Therapy should not exceed the 2 weeks.

FORMS &
PACKAGING

CUTANEOUS SOLUTION:

1,5% w/w

180 mg
BT x 5
BT x 10

CARDIOVASCULAR SYSTEM

MEDICINAL PRODUCTS

Pharmaceutical Laboratories S.A.

Cardiovascular System

Bisoprolol fumarate + Acetylsalicylic acid

CURILEN®

INDICATIONS

Arterial Hypertension and angina
in patients on monotherapy.

FORMS &
PACKAGING

HARD CAPSULES:

5mg Bisoprolol fumarate +
100mg Acetylsalicylic acid/cap
BT x 10 caps, BT x 14 caps,
BT x 28 caps, BT x 30 caps
BT x 56 caps, BT x 60 caps,
BT x 90 caps, BT x 98 caps
BT x 100 caps

HARD CAPSULES:

5mg Bisoprolol fumarate +
75mg Acetylsalicylic acid/cap
BT x 14 caps
BT x 28 caps,
BT x 30 caps
BT x 90 caps

HARD CAPSULES:

10mg Bisoprolol fumarate +
100mg Acetylsalicylic acid/cap
BT x 10 caps, BT x 14 caps
BT x 28 caps, BT x 30 caps
BT x 56 caps, BT x 60 caps,
BT x 90 caps, BT x 98 caps
BT x 100 caps

HARD CAPSULES:

10mg Bisoprolol fumarate +
75mg Acetylsalicylic acid/cap
BT x 14 caps
BT x 28 caps,
BT x 30 caps
BT x 90 caps

Bisoprolol hemifumarate

BLOCATENS®

INDICATIONS

· Arterial Hypertension
· Coronary heart disease

FORMS &
PACKAGING

COATED TABLETS:

10mg/c. tab (BT x 30 tabs)

Eplerenone

EPLERIUM®

INDICATIONS

It is indicated to prevent your heart failure worsening after a recent heart attack, in combination with other drugs that are used to treat your heart failure.

FORMS &
PACKAGING

FC TABLETS 25 mg, 50 mg:

BT x 10 fc tabs
BT x 20 fc tabs

BT x 90 fc tabs
BT x 100 fc tabs

Fish oil (Omega-3 Polyunsaturated Fatty Acids)

PROLIPID®

INDICATIONS

Hypertriglyceridemia. To be combined with an appropriate hypocholesterolemic diet.

FORMS &
PACKAGING

SOFT GELATIN CAPSULES:

Fish oil 500 mg (EPA 18% + DHA 12%)/cap.
(BT x .60 & BTx120 soft gel caps).

Fish oil 1000 mg (EPA 18% + DHA 12%)/cap.
(BT x 30, BT x 60 BTx120 soft gel caps).

Pharmaceutical Laboratories S.A.

Cardiovascular System

Hydrochlorothiazide **DIUREN®**

INDICATIONS
Diuretic

FORMS &
PACKAGING

TABLETS:
25mg Hydrochlorothiazide/tablet
(BT x 20 tablets)

Amlodipine besilate **KARPIN®**

INDICATIONS
Hypertension, Angina pectoris

FORMS &
PACKAGING

CAPSULES:
10mg Amlodipine besilate/cap. (BT x 14 caps)

Calcium Dobesilate **DOXYTREX®**

INDICATIONS
Diabetic retinopathy.
Chronic venous deficiency.

FORMS &
PACKAGING

CAPSULES: 500mg Calcium Dobesilate/capsule (BT x 30 capsules)
TABLETS: 250mg/tab (BT x 30 tablets)

Pharmaceutical Laboratories S.A.

Cardiovascular System

Bisoprolol fumarate **THERACOR®**

INDICATIONS

Treatment of stable chronic heart failure.

FORMS &
PACKAGING

FILM-COATED TABLETS:
5 mg/f.c tab (BT x 30 tabs)

Bisoprolol fumarate + Hydrochlorothiazide **THERACOR PLUS®**

INDICATIONS

Idiopathic Hypertension, in patients in whom blood pressure is not adequately controlled by bisoprolol or hydrochlorothiazide.

FORMS &
PACKAGING

FILM COATED TABLETS:
BT x 30 tablets
BT x 60 tablets
BT x 90 tablets

Simvastatin **NORMOTHERIN®**

INDICATIONS

Antihyperlipidemic.

FORMS &
PACKAGING

FILM COATED TABLETS:
80mg Simvastatin
(BT x 10 f.c. tablets)
(BT x 130 f.c. tablets)

FILM COATED TABLETS:
10mg Simvastatin
(BT x 10 f.c. tablets)
(BT x 30 f.c. tablets)

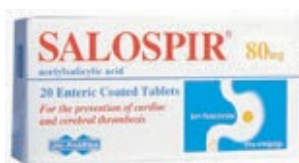

FILM COATED TABLETS:
20mg Simvastatin
(BT x 10 f.c. tablets)
(BT x 30 f.c. tablets)

FILM COATED TABLETS:
40mg Simvastatin
(BT x 10 f.c. tablets)
(BT x 30 f.c. tablets)

Pharmaceutical Laboratories S.A.

Cardiovascular System

Acetylsalicylic acid **SALOSPIR®**

INDICATIONS

Pain of mild to moderate severity, fever, thrombosis.

FORMS &
PACKAGING

GASTRO-RESISTANT TABLETS:

80mg Acetylsalicylic Acid/gr. tablets
(BT x 20 gr. tablets)

GASTRO-RESISTANT TABLETS:

100mg Acetylsalicylic Acid/gr. tablets
(BT x 20 gr. tablets)

GASTRO-RESISTANT TABLETS:

325mg Acetylsalicylic Acid/gr. tablets
(BT x 20 gr. tablets)
& (BT x 100 gr. tablets)

IRON, B12 & FOLIC ACID DEFICIENCIES

MEDICINAL PRODUCTS

Pharmaceutical Laboratories S.A.

Iron, B12 & Folic acid Deficiencies

Hydroxocobalamin Acetate

ARTICLOX®

INDICATIONS

Megaloblastic anemia on account of vitamin B12 deficiency. Preventive therapy to individuals with gastrectomy or total ileoectomy and in parenteral alimentation.

FORMS & PACKAGING

INJECTABLE SOLUTION:

1mg/2ml AMP. (BT x 3 ampoules)

5mg/2ml AMP. (BT x 3 ampoules)

10mg/2ml AMP. (BT x 3 ampoules)

Folic Acid

FANOLIT®

INDICATIONS

For the treatment of folic acid deficiency

FORMS & PACKAGING

TABLETS:

0.5 mg/tab (BTx30)

5 mg/tab (BTx30)

Iron protein acetyl aspartilate

OMALIN®

INDICATIONS

For treatment of iron deficiency in children and adults.

FORMS & PACKAGING

ORAL SOLUTION:

800 mg IRON PROTEIN ACETYL ASPARTILATE/15 ml.

BT x 10 vials x 15 ml

Iron protein acetyl aspartylate + calcium folinate

OMALIN Plus®

INDICATIONS

For mild iron deficiency and for the prevention of pregnancy and lactation anemia.

FORMS & PACKAGING

ORAL SOLUTION:

Oral solution 800 mg IRON PROTEIN ACETYL ASPARTILATE + 0.2 mg CALCIUM FOLINATE /15 ml.

BT x 10 vials x 15 ml

BT x 20 vials x 15 ml

Pharmaceutical Laboratories S.A.

Iron, B12 & Folic acid Deficiencies

Ferric Hydroxide Polymaltose Complex + Folic acid

HEMAFER FOL®

INDICATIONS

Iron deficiency of any cause and iron deficiencies without anaemia.

FORMS & PACKAGING

CHEWABLE TABLETS:

1,5% w/w 357 (100Fe+++)mg
Iron hydroxide polymaltose complex
+ 0,350mg Folic acid/tablet.
(BT x 30 chew. tablets)

EFFERVESCENT TABLETS:

357 (100Fe+++)mg
Iron hydroxide polymaltose complex
+ 0,350mg Folic acid/eff. tablet
(BT x 12 eff. tabl.)
(BT x 28 eff. tabl.)
(Tube of 10 eff. tabl.)

Ferric Hydroxide Sucrose Complex

HEMAFER-S®

INDICATIONS

Therapeutically: Sideropenic anaemias of any etiology which are usually revealed with difficulty.

Prophylactically: Cases of chronic blood loss or cases that favour the appearance of sideropenia (pregnancy, chronic bleeding conditions, after gastrectomy, diet given to babies poor in iron or for special cases such as twins, premature babies and low body weight infants).

FORMS & PACKAGING

Cs. SOL. INF.:

100mg/5ml (20mg/ml) AMP
BT x 5 AMPS x 5ml

Ferric Hydroxide Polymaltose Complex

HEMAFER®

INDICATIONS

Iron deficiency of any cause

FORMS & PACKAGING

CHEWABLE TABLETS:

100mg Iron(III)/tablet
(BT x 30 chew. tabl.)
(BT x 50 chew. tabl.)
(BT x 100 chew. tabl.)

INJECTABLE SOLUTION:

332 (100Fe+++)mg
Iron hydroxide
polymaltose complex/2ml
(BT x 5 amps x 2 ml)

ORAL SOLUTION

SINGLE DOSE:

100mg Iron(III)/5ml
(BT x 10 vials)

DROPS ORAL

SOLUTION:

50mg Iron(III)/ml
(Bottle of 30ml)

SYRUP:

50mg Iron(III)
/5ml (Bottle of 125ml)

EFFERVESCENT

TABLETS:

357 (100Fe+++)mg
Iron hydroxide polymaltose
complex/eff. tablet
(BT x 12 eff. tabl.)
(BT x 28 eff. tabl.)
(Tube of 10 eff. tabl.)

TOPICAL USE

MEDICINAL PRODUCTS

Pharmaceutical Laboratories S.A.

Topical Use

Mequinol **LEUCODININE-M®**

INDICATIONS

Dermatological Hyperpigmentation.

FORMS &
PACKAGING

EXTERNAL OINTMENT:

10% Mequinol/tube of ointment for external use

Tube of 20g

Tube of 50g

Tube of 100g

Minoxidil **LOTORIN®**

INDICATIONS

Male pattern baldness (alopecia).

FORMS &
PACKAGING

CUTANEOUS SOLUTION:

Solution 2% w/v

(Bottle of 60 ml + 3 applicators)

CUTANEOUS SOLUTION:

Solution 5% w/v

(Bottle of 60 ml + 3 applicators)

Acyclovir **UNIPLEX®**

INDICATIONS

Antiviral therapy of herpes simplex infections of the skin & mucous, including those of initial and relapsed herpes of the genital organs

FORMS &
PACKAGING

TABLETS:

200mg/tab (BT x 30)

400mg/tab (BT x 30)

CREAM EXTERNAL USE:

5% (Tube of 10g)

5% (Tube of 2g)

OINTMENT EXTERNAL USE:

5% (Tube of 15g)

GASTROINTESTINAL DISORDERS

MEDICINAL PRODUCTS

Pharmaceutical Laboratories S.A.

Gastrointestinal Disorders

Loperamide HCl **RHEOSTOP®**

INDICATIONS

It is administered in acute diarrhea or in chronic diarrhea. It is also administered to categorize of patients that have undergone partial intestine removal, a situation that usually causes diarrhea.

FORMS &
PACKAGING

OR. DISP. TAB:
2mg Loperamide/tab.
(BT x 6) & (BT x 12)

Sucralfate **PEPTONORM®**

INDICATIONS

Short term treatment of duodenal ulcer, chronic gastritis and reflux esophagitis.

FORMS &
PACKAGING

TABLETS:
0,875g Sodium chloride+0,375g
Potassium chloride+0,725g Sodium citrate
+5,00g Dextrose anhydrous/sachet (BT x 20 sach.)

GRANULES ORAL SUSP. SD.:
1g sucralfate/sachet
BT x 20 sachet,
BT x 30 sachet

ORAL SUSPENSION SD:
1g sucralfate/5 ml sachet
BT x 20 sachet,
BT x 30 sachet

Paracetamol + Hyoscine Butylbromide **SPASMO-APOTEL®**

INDICATIONS

Spasmolytic, Analgesic.

FORMS &
PACKAGING

COATED TABLETS:
500mg Paracetamol+10mg
Hyoscine Butylbromide/c.tablet
(BT x 20 c.tabl)
& (BT x 40 c.tabl)

SUPPOSITORIES:
800mg Paracetamol+10mg
Hyoscine Butylbromide/supp.
(BT x 5 supp)

INJECTABLE SOLUTION:
600mg Paracetamol
+20mg
Hyoscine Butylbromide/4ml.
(BT x 3 Amps x 4ml)
(BT x 5 amps x 4ml)

Pharmaceutical Laboratories S.A.

Gastrointestinal Disorders

Betaine citrate

ALKACITRAT®

INDICATIONS

Indigestion (slow digestion, bloating).

FORMS & PACKAGING

EFF.TABS:

2g Betaine citrate/tab
BT x 10 eff.tabs
BT x 20 eff.tabs

Homatropine Methylbromide

NOPAR®

INDICATIONS

Anticholinergic, Spasmolytic.

FORMS & PACKAGING

ORAL SOL. D.:

4mg Homatropine Methylbromide/ml
(Bottle of 15 ml)

Ranitidine hydrochloride

ZOLIDEN®

INDICATIONS

Treatment of duodenal benign gastric and post-operative ulceration, oesophageal reflux etc.

FORMS & PACKAGING

EFFERVESCENT TABLETS:

150 mg Ranitidine HCl/eff. tab.
(BT x 12 eff. tablets), (BT x 10)

Macrogol + Sodium chloride + Sodium hydrogen carbonate + Potassium chloride

CLINITRAT®

INDICATIONS

It is indicated for the treatment of:

- chronic constipation in adults, adolescents (12 years of age and older), elderly patients and children aged from 2 to 11 years.
- faecal impaction in adults, adolescents, elderly patients and children from the age of 5 years and above, which is defined as resistant to the treatment of constipation, by filling the rectum and/or colon with stools, which has been confirmed by physical or radiological examination of the abdomen and the colon.

FORMS & PACKAGING

SACHETS:

BT X 10, BT X 20

STICKS:

BT X 10, BT X 20

EYE DISORDERS

MEDICINAL PRODUCTS

Pharmaceutical Laboratories S.A.

Eye Disorders

Latanoprost + Timolol maleate **OPHTHA CUR®**

INDICATIONS

For the reduction of high intraocular pressure (IOP) in patients with open angle glaucoma and ocular hypertension who are insufficiently treated with topical b-blockers or prostaglandin analogues.

FORMS & PACKAGING

EY.DRO.SOL

50 mg latanoprost + 5 mg timolol/ml
BT x 1 vial/2.5 ml
BT x 3 vial/2.5 ml
BT x 6 vial/2.5 ml

Dorzolamide HCl + Timolol maleate **OPHTHA BIOTIC®**

INDICATIONS

For the reduction of high intraocular pressure (IOP) in patients with open angle glaucoma, who are insufficiently treated with topical b-blockers.

FORMS & PACKAGING

EY.DRO.SOL

20 mg dorzolamide + 5 mg timolol/ml
BT x 1 vial/5 ml
BT x 3 vial/5 ml
BT x 6 vial/5 ml

Dorzolamide hydrochloride **ODYRAL®**

INDICATIONS

As additional therapy to b-blockers. As monotherapy to patients who do not respond to b-blockers or who are contraindicated using beta-blockers to treat increased intraocular pressure.

FORMS & PACKAGING

EY.DRO.SOL

20mg/ml
BT X 1 VIAL/5ml
BT X 3 VIAL/5ml
BT X 6 VIAL/5ml

Bimatoprost **UP-46®**

INDICATIONS

Reduction of high intraocular pressure (IOP) in chronic open angle glaucoma and ocular hypertension in adults (as monotherapy or as additional therapy to beta-blockers).

FORMS & PACKAGING

EY.DRO.SOL:

0,3mg/ML
BT X 1 FL X 3ml

CORTICOSTEROIDS

Pharmaceutical Laboratories S.A.

Corticosteroids

Dexamethasone

AXIUM®

INDICATIONS

Corticosteroid; designed for use in certain endocrine and non-endocrine disorders, in certain cases of cerebral oedema and for diagnostic testing of adrenocortical hyperfunction.

FORMS & PACKAGING

ORAL SOLUTION:

Bottle x 75 ml
Bottle x 150 ml
2 mg dexamethasone /5ml

Methylprednisolone

PROVIST®

INDICATIONS

It is indicated for the treatment of various pathological conditions, which may relate to:

- endocrine disorders
- rheumatic diseases and collagen diseases
- skin diseases
- allergic conditions
- eye diseases
- respiratory diseases
- haematological disorders
- neoplastic diseases
- edematous states
- gastrointestinal disorders
- central nervous system disorders
- tuberculous meningitis
- trichinosis

FORMS & PACKAGING

TABLETS (QUADRISECT):

BT x14

Budesonide

LISOBRON®

INDICATIONS

It is indicated in the superficial skin alterations not induced by microorganisms sensitive to corticosteroids but not sufficiently responding to mild action preparations like : usual psoriasis, lichen ruber, lichen planus et atrophicus, vascular sole (ANDREWS-BARBER). Management of serious or resistant to therapy cases of eczema.

FORMS & PACKAGING

CREAM

0,025% Budesonide (Tube of 30g), (Tube of 50g)

Hydrocortizone

EDICOT®

INDICATIONS

Replacement therapy in congenital adrenal hyperplasia in children. Emergency treatment of severe bronchial asthma, drug hypersensitivity reactions, serum sickness, angioneurotic oedema and anaphylaxis in adults and children.

FORMS & PACKAGING

TABLETS:

20 mg Hydrocortizone/tablet
(BT x 30 tablets)

ARTHROPATHIES & MUSCULOSKELETAL DISORDERS

MEDICINAL PRODUCTS

Pharmaceutical Laboratories S.A.

Arthropathies & Musculoskeletal Disorders

Allopurinol **SOLURIC®**

INDICATIONS

Prophylaxis of gout and of uric acid and calcium oxalate renal stone.

FORMS & PACKAGING

CONTROLLED RELEASE TABLETS:

300mg Allopurinol/c.r.tablet
(BT x 30 c.r. tablets)

TABLETS:

100mg Allopurinol/tablet
(BT x 25 tabl.), (BT x 30)

TABLETS:

300mg Allopurinol/tablet
(BT x 28 tabl.), (BT x 30)

Disodium Etidronate **OSTOPOR®**

INDICATIONS

Paget's disease. Established vertebral osteoporosis.
Postmenopausal Osteoporosis.

FORMS & PACKAGING

CAPSULES:

200mg Etidronate
Disodium/capsule
(BT x 30 capsules)

CAPSULES:

300mg Etidronate Disodium/capsule
(BT x 30 capsules)
400mg Etidronate Disodium/capsule
(BT x 30 capsules)

EFFERVESCENT TABLETS:

400mg Etidronate
Disodium/eff. tabl.
(BT x 14 eff. tablets)

Glucosamine sulfate **BEST®**

INDICATIONS

Relief therapy for the symptoms of osteoarthritis.

FORMS & PACKAGING

PD.OR.SOL.:

1,5g/sach BT x 20 sach

RESPIRATORY SYSTEM DISORDERS

MEDICINAL PRODUCTS

Pharmaceutical Laboratories S.A.

Respiratory System Disorders

Montelukast Sodium **ASCOLIN[®]**

INDICATIONS

For the treatment of asthma.

FORMS & PACKAGING

CHEWABLE TABLETS:

5 mg/tab
BT x10, x14, x30
4mg/tab
BT x10, x14

FILM COATED TABLETS:

10 mg/tab
BT x 10, BT x 14 & BT x 30

Cetirizine Dihydrochloride **HISTAFREN[®]**

INDICATIONS

Anti-histaminic. Symptomatic treatment of seasonal and chronic allergic rhinitis, conjunctivitis, itching of allergic etiology.

FORMS & PACKAGING

F.COATED TABLETS:

10mg Cetirizine HCl/tablet
(BT x 20 f.c.tablets)

EFFERVESCENT TABLETS:

10mg Cetirizine HCl/eff.tablet
(BT x 12 eff.tabl.)

ORAL DROPS (or.dr.sol.):

10mg Cetirizine HCl/ml
(Bottle of 20ml)

Theophylline Anhydrous **UNIPHYLLIN[®]**

INDICATIONS

Bronchial asthma, reversible airway obstruction, etc.

FORMS & PACKAGING

SUSTAINED-RELEASE TABLETS:

100mg (BT x 30 sr tablets)
200mg (BT x 30 sr tablets)
300mg (BT x 30 sr tablets)

INJECTABLE SOLUTION:

240mg Theophylline as Monohydrate/4ml inj. sol.
(BT x 3 amps)

Pharmaceutical Laboratories S.A.

Respiratory System Disorders

Chlorphenamine maleate

DRASTINO(N)[®]

INDICATIONS

Antihistamine for the relief of the symptoms of seasonal and chronic allergic rhinitis, vasomotor rhinitis and allergic conjunctivitis.

FORMS &
PACKAGING

TABLETS

4mg/tab
BT x 20 tablets

Budesonide

LISOBRON[®]

INDICATIONS

Management of symptoms of seasonal or perennial rhinitis in adults and children (over 6 years) and in adults perennial non-allergic rhinitis.

FORMS &
PACKAGING

NASAL SPRAY SUS.:

50mcg Budesonide/dose (FI X10ml – 200 doses)

Butamirate Citrate

ZETAPRON[®]

INDICATIONS

Pharyngeal antiseptic indicated for the treatment of non-productive cough.

FORMS &
PACKAGING

SYRUP:

7,5mg Butamirate citrate/5ml (Bottle of 200ml)

Pharmaceutical Laboratories S.A.

Respiratory System Disorders

Flurbiprofen

STRABEN®

INDICATIONS

Short term symptomatic relief of sore throat in adults and children over the age of 12 years.

FORMS & PACKAGING

LOZENGES

8.75 mg flurbiprofen
(BT x 14)
(BT x 20)

Acetylcysteine

TREBON-N®

INDICATIONS

Liquefies mucus secretions & facilitates expectoration.

FORMS & PACKAGING

GRANULES ORAL SUS.:
100mg N-Acetylcysteine/

Minerals & Amino acids

Calcium Carbonate **BODY-CALCIN®**

INDICATIONS

Treatment and prevention of calcium deficiency.

FORMS &
PACKAGING

CHEWABLE TABLETS:

500mg Calcium carbonate
(BT x 20 chew tablets)

Calcium carbonate + cholecalciferol **BODY-CALCIN® D3**

INDICATIONS

calcium and vitamin D deficiency

FORMS &
PACKAGING

CHEWABLE TABLETS:

500 mg calcium + 400 IU vitamin D/chw tab
(BT x 20 CHW TABS)

Calcium carbonate + cholecalciferol **BODY-CALCIN® D3 FORTE**

INDICATIONS

calcium and vitamin D deficiency

FORMS &
PACKAGING

CHEWABLE TABLETS:

500 mg calcium + 800 IU vitamin D/chw tab
(BT x 20 CHW TABS)

Pharmaceutical Laboratories S.A.

Minerals & Amino acids

Calcium **CALCIOMAX M.A[®]**

INDICATIONS

- Prevention and treatment of calcium deficiency
- Calcium supplement as an adjunct to specific therapy in the prevention and treatment of osteoporosis
- Rickets and osteomalacia, in addition to vitamin D3 therapy

FORMS &
PACKAGING

EFFERVESCENT TABLETS

1000 mg/tab
BT x 10 efft.tablets & BT x 20 eff.tablets

L-Carnitine **INTELECTA[®]**

INDICATIONS

Levocarnitine deficiency.

FORMS &
PACKAGING

INJECTABLE AMPOULES:

1g L-Carnitine/5ml (BT x 6 ampoules)
2g L-Carnitine/5ml (BT x 6 ampoules)

ORAL SOLUTION SINGLE DOSE:

1g L-Carnitine/10ml monodosimetric vial
(BT x 10 divided dose vials)
2g L-Carnitine/10ml monodosimetric vial
(BT x 10)

EFFERVESCENT GRANULES:

1g L-Carnitine/sach.
(BT x 10 sachets X 3,5g)
(BT x 30 sachets X 3,5g)
2g L-Carnitine/sach.
(BT x 10 sach x 5g)
(BT x 30 sach x 5g)

Sodium chloride + Potassium chloride + Sodium citrate + Dextrose

DEXTROLYTE[®]

INDICATIONS

Prevention and treatment of electrolytic disorders and dehydration due to diarrhea.

FORMS &
PACKAGING

EFFERVESCENT GRANULES:

0.875g Sodium chloride+0.375g
Potassium chloride+0.725g Sodium citrate+5.00g Dextrose anhydrous/sachet
(BT x 20 sach.)

FOOD SUPPLEMENTS

Pharmaceutical Laboratories S.A.

Food Supplements

D3fix[®], D3fix[®] extra, D3fix[®] max, D3fix[®] ultra
Vitamin D3 (cholecalciferol)
containing 1200 IU, 2000 IU,
4000 IU and 10000 IU respectively

INDICATIONS

Vitamin D3 is produced through the photolytic action of ultraviolet radiation in the skin. Even though each organism can produce Vitamin D3, the modern lifestyle and inadequate exposure to sunlight results to Vitamin D3 deficiency, which can only be supplemented through food, as its purpose in maintaining the organism in a good condition is highly important.

Vitamin D contributes to:

- Normal absorption/utilisation of calcium and phosphorus
- Normal blood calcium levels
- The maintenance of normal bones and teeth
- The normal function of the immune system and muscles
- The process of cell division

Each D3fix[®] (1200 IU Vit D3 per tablet), D3fix[®] extra (2000 IU Vit D3 per tablet), D3fix[®] max (4000 IU Vit D3 per tablet) contains: 60 bisected tablets
D3fix[®] ultra (10000 IU Vit D3 per tablet) contains: 30 bisected tablets

D3 Cal fix[®]

Calcium 500 mg
+ D3(cholecalciferol) 800 I.U.

INDICATIONS

D3 Cal fix[®] is a new food supplement, a combination of calcium and vitamin D3, which provides 500 mg Ca per sachet and 800 IU (20 µg) vitamin D3 (cholecalciferol). Calcium is needed for the maintenance of normal bones and teeth and vitamin D contributes to normal absorption/utilization of calcium, normal calcium blood level and the maintenance of normal bones.

D3 Cal fix[®], thanks to its composition, helps in cases where an increased dietary need of calcium and vitamin D is established.

D3 Cal fix[®] does not contain sugar, sodium and lactose and it is suitable for diabetics.

20 sachets of effervescent granules

Pharmaceutical Laboratories S.A.

Food Supplements

D3fix® + K2

Vitamin D3 (cholecalciferol) and vitamin K2 (menaquinone) containing 800 IU + 45mg, 1200 IU + 45 mg, 2000 IU + 45mg and 4000 IU + 45mg respectively

INDICATIONS

Vitamins D & K are fat soluble vitamins and play an essential role in maintaining the organism in a good condition.

Vitamin D3 is produced in the skin through the photolytic action of ultraviolet radiation. Besides the fact that each organism can produce Vitamin D3, the modern lifestyle and the inadequate exposure to sunlight result to Vitamin D3 deficiency, which must be supplemented through nutrition.

Vitamin K is a cofactor in a number of biochemical pathways and it can be found in leafy green vegetables and in fermented dairy products.

Vitamin D3 contributes to:

- Normal absorption/utilisation of calcium and phosphorus
- Normal blood calcium levels
- The maintenance of normal bones & teeth
- The maintenance of normal muscle function
- The normal function of the immune system
- The process of cell division

Vitamin K2 contributes to:

- Normal blood clotting
- The maintenance of normal bones

Each D3fix® + K2 (800 IU + 45 mg Vit D3 per tablet), D3fix® + K2 (1200 IU + 45 mg Vit D3 per tablet), D3fix® + K2 (2000 IU + 45 mg Vit D3 per tablet) and D3fix® + K2 (4000 IU + 45 mg Vit D3 per tablet)

PACKAGING CONTAINS:
60 bisected tablets

Pharmaceutical Laboratories S.A.

Food Supplements

IDO-fix®

Iodine 200mg
(as potassium iodide).

INDICATIONS

Iodine is an essential structural component of the thyroid hormones T3 and T4, which play a decisive role in the general metabolism and growth of the human body.

Lack of iodine could lead to the decreased production of T3 and T4 with all that implies for the smooth functioning of the body [various diseases of the thyroid gland (e.g. goiter), mental retardation].

FORMS &
PACKAGING

60 quadrasected tablets
(200µg Iodine as potassium iodine per tablet).

Magne & B6 fix®

Magnesium 100 mg
& Vitamin B6 8.2 mg

INDICATIONS

Magnesium & Vitamin B6 contributes to normal functioning of the nervous system and the metabolic processes aimed at producing energy, the normal psychological state and the reduction of tiredness and fatigue.

Magne & B6 fix®, thanks to the Magnesium and vitamin B6 it contains and their properties, helps to normalize the functioning of both the nervous and muscular system in numerous cases such as the premenstrual syndrome (PMS). At the same time, contributes to the hemato-poietic function and the energy production that is necessary for the treatment of fatigue that accompanies this syndrome.

FORMS &
PACKAGING

30 sachets of granules for oral solution

Cranfix®

A unique combination of cranberry extract with vitamin C, selenium and zinc, which has been designed to contribute to the normal function of the immune system of people suffering from repeated urinary tract infections. Urinary tract infection (UTIs) are among the most common of a bacterial infections.

INDICATIONS

CRANFIX®, thanks to its rich in proanthocyanidins (PACs) cranberry extract, inhibits the ability of bacteria E. coli to adhere to urinary epithelium. Vitamin C, Selenium and Zinc contribute to a normal function of the immune system.

FORMS &
PACKAGING

CRANFIX® delivers stable and guaranteed amount 18mg PACs per capsule.
With only 2 capsules CRANFIX® daily, the patient takes the minimum amount of PACs (36mg) which is required for cranberries antibacterial action.

Pharmaceutical Laboratories S.A.

Food Supplements

LactoLevure®

Unique combination of lyophilized yeasts (*Saccharomyces boulardii*), lactobacillus (2 different species) and intra-symbiotic bacteria (Bifidobacteria).

INDICATIONS

Situations of intense stress, abrupt climate changes, poor eating habits, antibiotic treatments and low fiber intake could upset the intestinal balance causing digestive difficulties, bloating, flatulence, pain and changes in bowel movements (diarrhea or constipation). The four probiotic strains which LactoLevure® combines (*Saccharomyces boulardii*, *Bifidobacterium lactis*, *Lactobacillus acidophilus*, *Lactobacillus plantarum*) are constant at the temperature and the secretions of the digestive system, effective and safe.

FORMS & PACKAGING

10 capsules in blister
(5,5 billion live cells per capsule).

LactoLevure® Adults Symbiotic

Lactobacillus rhamnosus, *Bifidobacterium longum*, *Lactobacillus acidophilus*, FOS, psyllium husk fiber

INDICATIONS

Repel® MycoClean

Elimination treatment for fungi infections of the nails (Onychomycosis)

INDICATIONS

Changes the microenvironment of nails & aims to the elimination of fungus

REPEL MycoClean is a medical device that aims to eliminate the fungi occurring in toenails and, more rarely, in fingernails. The product acts naturally by inhibiting the growth of fungal diseases, as it reduces the pH of the nails and creates an adverse environment for the development of dermatophytes (fungi responsible for a variety of fungal infections). Its action, based on the long-term acidification of the microenvironment of the finger nails, is purely topical and targeted and has no pharmaceutical effect against fungi. REPEL MycoClean contains a combination of herbal oils that takes care and strengthens the nails.

Medical Device

Repel® Wart Clean

Patch for the treatment of warts

INDICATIONS

Changes the microenvironment of nails & aims to the elimination of fungus. Repel Wart Clean is recommended for the treatment of warts caused by the common Verruca vulgaris simplex, that usually appears on feet.

Repel Wart Clean facilitates their physiological recovery in a purely mechanical way, without the use of pharmaceutical substances

12 Discreet, Transparent & Comfortable patches

Suitable for Verruca vulgaris

Afta Clean®

Patches for mouth ulcers

INDICATIONS

AFTA Clean® is an innovative product in the form of patches that is indicated as a protective adjuvant in the treatment of mouth ulcers, promoting their healing in addition to providing pain relief. The presence of low molecular weight hyaluronic acid, thanks to its film-forming and moisturising properties, allows protective action while keeping the epidermal cells of the mucosa in a state of trophism which indirectly enables the process of cell regeneration in the damaged mucosa.
