

VAXOM – Smart Packaging Solutions for Evolving Needs

Established in 2012, **VAXOM** operates as the Indian office for leading European packaging machinery manufacturers, offering complete **sales and after-sales services** across **India and the Asia-Pacific region**.

With a strong team of **well-trained sales and service professionals**, **VAXOM** is recognized for delivering **cost-effective and reliable solutions** for complex packaging requirements in the **pharmaceutical, cosmetics, nutraceutical, and food** industries.

In just over a decade, **VAXOM** has successfully completed more than 80 projects and installed over 200 machines, reinforcing its position as a **trusted packaging partner** in the region.

Solutions We PARTNER with

CAPMATIC LTD A recognized leader in sterile and non-sterile liquid filling technology:

- Liquid filling lines for bottles, nasal sprays, and ophthalmic products
- Counting monoblocs and complete lines with speeds from 60 to 300 BPM

Axomatic Group Specialists in cosmetic and pharma sector equipment:

- Automatic tube filling machines
- Manufacturing vessels for creams, gels, and pastes

INVpack Experts in single-dose flexible packaging:

- High-speed sachet and stick pack lines for pharma, food, and nutraceutical products

CURTI Providers of end-of-line and secondary packaging systems:

- High-speed blister cartoning lines
- Automated end-of-line (EOL) packaging up to palletizing

Whether you need to upgrade a machine, optimize a process, or source a complete packaging solution, **VAXOM** and its partner brands offer the technology and expertise to meet your goals.

 Visit our booth to explore tailor-made solutions for your packaging challenges.
