

## Print Inspection

GlobalVision Print Inspection is a digital quality control system that allows users to automatically compare hardcopy samples to digital files, enabling powerful off-line inspections that protect against all types of critical errors.

Built to eliminate the inefficiencies of manual proofreading, Print Inspection works by scanning in printed proofs using a GlobalVision certified scanner. These proofs are then automatically compared against approved PDF files to detect any differences between them.

## Business Benefits

- ▶ Catch costly print errors before going to production
- ▶ Check hardcopy supplier proofs to ensure content accuracy
- ▶ Eliminate proofreading delays for faster turnaround time
- ▶ Accelerate the approval process with detailed inspection reports

## Print Inspection Features

- ▶ Inspect press sheets and imposition files
- ▶ Inspect multiple sheets and multi-page PDFs at once
- ▶ Automatically remove dielines & manage layers and separations
- ▶ Automatic sizing and alignment of samples
- ▶ Group together differences for easy navigation and annotations
- ▶ Review all differences with comprehensive reporting

## IT Benefits

### Flexible Development Options:

- ▶ Available as a workstation, concurrent, and server-based (Intranet)
- ▶ Low IT overhead costs
- ▶ Easily integrates via APIs

## What you can inspect with GlobalVision Print Inspection:

Cartons

Labels

Booklets

Leaflets

Press Sheets

Multi-page documents

Cylindrical packaging

## File Types Supported:

1 - bit TIFF

MP

AI

PDF

JPEG

LEN

DOC

DOX

GlobalVision Print Inspection is compatible for use with both Windows and MAC.

## Easily Integrates With:

- ▶ Artwork Management Systems (AMS)
- ▶ Document Management Systems (DMS)
- ▶ Product Lifecycle Management (PLM)
- ▶ Laboratory Information Management Systems (LIMS)

## Additional Inspection Modules:

Barcode Inspection

Braille Inspection

Color Inspection

## Compliance Add-On

- ▶ ISO 9001:2015 Certified
- ▶ 21 CFR Part 11 Compliant
- ▶ Annex 11 Compliant
- ▶ Audit Trail Module Available
