Expanding USP's mission to quality

The standard of trust

Did You Know
that laboratories can now
obtain **Proficiency Testing**
studies and panels
through USP?

- Strengthens confidence in the accuracy of laboratory testing results.
- Provides objective evidence of laboratory competence.
- Proficiency testing panels evaluate participants using test methods from multiple USP General Chapters on a single material.
- Helps Customers meet ISO and regulatory guidelines.
- Offered through a strategic relationship with NSI Lab Solutions, an accredited Proficiency Testing provider.
