

Integrated Strategy To Industrialization

R&D Platform

- Digital integrated laboratory with modular automatic control
- Rich experience and strong self-motivation team
- Abundant achievements of more than 30 SCI and 20 national invention patents

Marketing System

- All-powerful capability on product discovery
- Overwhelming global market resource integration
- Multi-dimensional global sales web with 1000+ customers

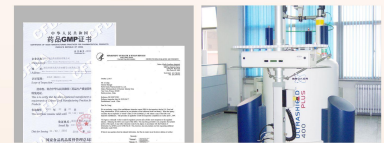

Production System

- Located in Grade D industrial park in Hubei and Jiangsu Province
- Total covered area of 186,480m² and reactor capacity of 1,500m³
- Approved by NMPA/PMDA

Quality Management System

- Application of QbD (Quality by Design)
- R&D QA and RA for in-depth project research
- cGMP system throughout the whole life cycle

CRO/CMO service

Raw material sourcing and supply chain management

Global regulatory affairs support

Green industrial production with safety and economy

Green industrial production with safety and economy

Analytical method validation/Process optimization and validation

Product marketing and sales management
