

# EMBO CAPS® VG PRO

Hypromellose (HPMC) based Empty Hard Capsule

Preservative Free

Low Moisture  
Content 3-7%

Non-animal  
Alternative

Hygroscopic &  
Moisture Sensitive Fills

## PREMIUM QUALITY VEGETARIAN CAPSULE

The VG Pro is a HPMC capsule designed for outstanding filling performance even under low moisture conditions. Manufactured using the same process as conventional capsules, it is the newest generation of vegetarian capsules available in the market and the newest member of the EMBO CAPS® VG Collection.

## SUPERIOR QUALITY

### Lubricity | Clarity | Strength | Disintegration

The VG Pro is compatible with other EMBO CAPS® technologies and utilizes all of the existing EMBO CAPS® quality and design characteristics.

VG Pro is suitable for pharmaceutical, nutraceutical, cosmeceutical and other encapsulated products meeting all requirements in USP, JP, EP and CFR21.
